1. यह अपील आदेश संबंधित का नि प्रदान शुल्ककिया जाता है।
2. यदि कोई व्यक्ति इस अपील आदेश से असंतुष्ट है तो वह शीमा शुल्क अपील नियमावली 1982 के नियम 3 के साथ प्रतिक प्रदान शुल्क अधिनियम 1962 की धारा 128 A (1) के अंतर्गत प्राप्त करेगा। 3 माह दर्ज प्रतिदिन में नीचे लिखे गए पते पर अपील कर सकता है।

Any person aggrieved by this Order - in - Original may file an appeal under Section 128 A (1) (a) of Customs Act, 1962 read with Rule 3 of the Customs (Appeals) Rules, 1982 in quadruplicate in Form C. A -3 to:

"नीमा शुल्क आयुक्त (अपील), कोट्सा
गंजिस वी ७, मूल सं. टायर, टाइम्स ऑफ़ इंडिया के पीछे, आश्रम रोड, अहमदाबाद 380 009
"THE COMMISSIONER OF CUSTOMS (APPEALS), KANDEL"
7th Floor, Mridul Tower, Behind Times of India, Ashram Road, Ahmedabad - 380 009."

3. उक्त अपील यह आदेश भेजने की दिनांक से 60 दिन के भीतर दाखिल की जानी चाहिए।

Appeal shall be filed within sixty days from the date of communication of this order.
4. **Appeal should be accompanied by a fee of Rs. 2/- under Court Fee Act it must accompanied by –**

(i) **A copy of the appeal, and**

(ii) **This copy of the order or any other copy of this order, which must bear a Court Fee Stamp of Rs. 2/- (Rupees Two only) as prescribed under Schedule – I, Item 6 of the Court Fees Act, 1870.**

5. **Proof of payment of duty / interest / fine / penalty etc. should be attached with the appeal memo.**

6. **While submitting the appeal, the Customs (Appeals) Rules, 1982 and other provisions of the Customs Act, 1962 should be adhered to in all respects.**

7. **An appeal against this order shall lie before the Tribunal on payment of 7.5% of the duty demanded where duty or duty and penalty are in dispute, or penalty, where penalty alone is in dispute.**
BRIEF FACTS OF THE CASE

A specific intelligence was gathered by the officers of Directorate of Revenue Intelligence (hereinafter referred to as ‘DRI’) that the goods, which are restricted for import, is being imported by some importers at Kandla Port and Mundra Port in the guise of “Industrial Composite Mixture Plus” (hereinafter also referred to as “ICMP” or “Subject goods” and as declared in Bill of Entry) or “Low Aromatic White Spirit” (hereinafter also referred to as “LAWS” or “Subject goods” and as declared in Bill of Entry) in violation of the Policy provisions.

1.1. In pursuance to the specific intelligence available with DRI, inquiry was initiated by way of searches / visits by the officers of DRI at various premises and the brief details thereof are as under:

(a) Panchnama dated 29.08.2018 drawn at the office premises of M/s. Shree Sanari Shipping, P&P Plaza, Plot No. 314, Ward 12B, LIC Street, Gandhidham from where some incriminating documents were recovered.

During the search, copies of the documents/emails were taken. Printouts of WhatsApp chat of Shri Virbhadr Rao with one Shri M. Das were also taken and it was informed by Shri Virbhadr Rao that Shri M. Das handles his Customs clearance work. Laptop of Shri Virbhadr Rao was also taken for investigation purpose.

(b) Panchnama dated 29.08.2018 drawn at the office premises of M/s. MAT Shipping, located at ICON Building, Office No. 109 & 110, 1st Floor, Plot No. 327, Ward 12/B, Tagore Road, Gandhidham, Kutch, Gujarat – 370201 from where some incriminating documents were recovered.

During the search, copy of the outlook back up of the email ids being used by Shri Mritunjay Dasgupta was taken. On checking the mobile phones of Shri Mritunjay Dasgupta, Screen shots of some of relevant WhatsApp chats were also taken.

1.2 From the above searches, it has come to the notice that some importers were engaged in importing the ICMP / LAWS, which included M/s. Janpriya Energy, 77B, RIIICO Industrial Area, Nagaur- 341001(PAN No. AESP9403I, IEC No.1311005722) (Hereinafter also referred as “M/s. Jan Priya”’. The goods imported by M/s. Janpriya, vide B/E No. 7730154, dated 21.08.2018 was declared as ‘Industrial Composite Mixture Plus’ / valued at Rs. 1,66,95,237/- (Rupees One Crore Sixty Six Lakh Ninety Five Thousand Two Hundred Thirty Seven only) having total quantity 351.82 MT and the details of the same are given below at Table-1:

1.3. Further, it was revealed that, the aforesaid consignment of imported goods was given out of charge by the Customs authorities, Kandla on 28.08.2018 on the basis of test report obtained from the Customs House Laboratory, Kandla. It was also revealed that the test report, issued by the Customs House Laboratory, Kandla, was not correct and to avoid the material getting classified as SKO (Superior Kerosene Oil) falling under CTH No. 27101910, which is of restricted nature, illegal gratification was passed on to the officers of the Customs Laboratory, Kandla. Therefore, representative samples pertaining to seven bills of entry, including the B/E mentioned at Table-1, which were filed at Custom House Kandla, were drawn vide Panchnrama dated 31.08.2018 at the premises of Central Warehousing Corporation (CWC), Container Freight Station (CFS), New Kandla, Kutch, Gujarat and such seven samples were forwarded to the CRCL, Delhi by DRI vide letter dtd.15.09.2018 to ascertain the correct description of the imported goods intended for clearance with declaration as ICMP/LAWS.

1.4. Further to the above, as per the intelligence, since the test report in respect of samples drawn by Customs on 24.08.2018 for the consignment covered vide B/E No. 7730154, dtd.21.08.2018 filed by M/s. Janpriya Energy was manipulated, the second sample and remnant of the sample (already tested in Custom House Laboratory Kandla) were asked for by DRI from Customs Kandla vide letter dated 26.09.2018. On receipt of the duplicate and remnant sample from Customs Kandla vide letter dtd.26.09.2018, the same were forwarded by DRI to the CRCL, New Delhi vide letter dated 27.09.2018.

1.5. The Joint Director, Customs Laboratory, Kandla was asked by the DRI vide letter dated 05.09.2018 to provide the Chemical Book showing the procedure of test for cargo pertaining to B/E No. 7730154 dated 21.08.2018 as well as the standards, on the basis of which, the test memo No. 1033659, dated 24.08.2018 was examined. In reply to the same vide letter dated 07.09.2018, the Joint Director, Customs Laboratory, Kandla provided copy of IS 1745-1978, based on which the procedure of test was followed.

1.6. Vide letter dated 28.09.2018, the Chemical Examiner (CRCL, New Delhi) after due testing of all seven samples drawn on 31.08.2018, including the sample pertaining to the B/E mentioned at Table-1 above, opined that those samples meet the requirements of SKO (Kerosene) as per IS: 1459-1974. The comparison of test reports issued by the CRCL, Delhi of the sample drawn by DRI on 31.08.2018 and the test report, which was issued by the Custom House Laboratory, Kandla in respect of aforesaid Bill of Entry with regard to the Final Boiling Point is provided below at Table-2:

1.7. As regards the testing of the second sample, which was drawn by Kandla Customs on 24.08.2018, the CRCL, Delhi provided their report F. No. 27-Cus/C-15/2018-19 dttd. 05.10.2018 as per which it was again confirmed that the sample conforms to the specification of Kerosene (SKO) as per IS 1459:2016 (Third Revision) and that it does not meet the requirements for Petroleum Hydrocarbon Solvents as per IS 1745-1978. 

1.8. The above test reports of the CRCL, New Delhi confirmed that the goods imported under above mentioned B/E filed by M/s. Janpriya is SKO (Kerosene), which is liable for classification under CTH No. 27101910, but the same were attempted to be cleared from customs by mis-declaring its description as "Industrial Composite Mixture Plus" with wrong classification thereof under CTH 27101990. The total value (excluding duties of customs) covered under aforesaid Bill of Entry is Rs. 1,66,95,237/-, as declared in the Bill of Entry, but the market value of the said goods is Rs. 2.53 Crore approx. (as per website of IOCL-non subsidized price in metro in Oct., 2018).

1.9. Para 2.01 of the Foreign Trade Policy 2015-2020, which was notified under Section 5 of the Foreign Trade (Development and Regulation) Act, 1992, prescribed as follow:

“(a) Exports and Imports shall be ‘Free’ except when regulated by way of ‘prohibition’, ‘restriction’ or ‘exclusive trading through State Trading Enterprises (STEs)’ as laid down in Indian Trade Classification (Harmonized System) [ITC (HS)] of Exports and Imports. The list of ‘Prohibited’, ‘Restricted’, and STE items can be viewed by clicking on ‘Downloads’ at http://dgft.gov.in

(b) Further, there are some items which are ‘free’ for import/export, but subject to conditions stipulated in other Acts or in law for the time being in force.”

1.10. As per the Schedule I of the Indian Trade Classification (HS) Classifications on Import Items 2015-2020, Section V, Chapter 27, Import Policy for the Superior Kerosene Oil (SKO), as covered under Customs Tariff Heading and Tariff Item No. 27101910 is “State Trading Enterprises” with remarks that “Import subject to Para 2.11 of the Foreign Trade Policy and condition at Policy condition (2) below.”

1.11. Para 2.20 of the Foreign Trade Policy 2015-2020, which was notified under Section 5 of the Foreign Trade (Development and Regulation) Act, 1992 specified as follow:

(a) State Trading Enterprises (STEs) are governmental and nongovernmental enterprises, including marketing boards, which deal with goods for export and/or import. Any good, import or export of which is governed through exclusive or special privilege
granted to State Trading Enterprise (STE), may be imported or exported by the concerned STE as per conditions specified in ITC (HS). The list of STEs notified by DGFT is in Appendix-2J.

(b) Such STE(s) shall make any such purchases or sales involving imports or exports solely in accordance with commercial considerations, including price, quality, availability, marketability, transportation and other conditions of purchase or sale in a non-discriminatory manner and shall afford enterprises of other countries adequate opportunity, in accordance with customary business practices, to compete for participation in such purchases or sales.

(c) DGFT may, however, grant an authorisation to any other person to import or export any of the goods notified for exclusive trading through STEs.

1.12. Further to the above, the Policy condition (2) prescribed at Schedule I of the ITC (HS) Classifications on Import Items 2015-2020, Section V, Chapter 27 specified as follow:

“(2) Import of SKO shall be allowed through State Trading Enterprises (STEs) i.e. IOC, BPCL, HPCL, and IBP for all purposes with STC being nominated as State Trading Enterprises (STE) for supplies to Advance Licence Holders. Advance Licence Holders shall however, have the option to import SKO from the above mentioned STEs including STC.”

1.13. The list of the State Trading Enterprises (STEs) for FTP purpose, as provided vide Appendix 2J of the Foreign Trade Policy 2015-2020 is as follow:

*S. NO.  |  STATE-TRADING ENTERPRISES*
---|---
1. | Food Corporation of India (FCI)
2. | State Trading Corporation (STC)
3. | Indian Oil corporation (IOC)
4. | Bharat Petroleum Corporation Ltd. (BPCL)
5. | Hindustan Petroleum Corporation Ltd. (HPCL)
6. | Oil and Natural Gas Corporation Ltd. (ONGC)
7. | Minerals and Metals Trading Corporation (MMTC)
8. | Indian Potash Ltd. (IPL)
10. | National Cooperative Dairy Federation (NCDF)
11. | National Agriculture Cooperative Marketing Federation of India Ltd (NAFED)
12. | Projects and Equipment Cooperation of India Ltd. (PEC)
13. | Spices Trading Corporation Limited (STCL)
14. | Central Warehousing Corporation (CWc)“

1.14. Further to the above, since the SKO in the total quantity in possession exceeding the specified quantity falls in the category of “Petroleum Class B” and the import, storage and handling of the products falling under “Petroleum Class B” are governed by the provisions of
the Petroleum Act, 1934 (30 of 1934). Import of SKO; in this case, if to be considered as classifyable as “Petroleum Class B”, then the Licence issued under the Petroleum Rules, 1976 is mandatory for import of goods falling under “Petroleum Class B” and only such Petroleum is allowed to be imported which are already in possession of Licence issued under the Petroleum Rules, 1976. Further for the storage of such “Petroleum Class B” products, statutory provisions have been made, which requires different manner of compliance, if such goods to be stored in Drums and to be stored in tanks. As per Notification No. 105-Cus dtd. 06.08.1938, any import made in contravention of the provisions of the Petroleum Act, 1934 (30 of 1934) may have to be treated in deemed violation of the provisions of Section 11 of the Customs Act, 1962.

1.15. From the above facts, it is apparent that the goods, though being SKO falling under CTH No. 27101910, were mis-declared as ICMP, falling under CTH No. 27101990, by suppressing its correct description as SKO and that the condition stipulated for import through or by STE or against the Special authorisation issued by the DGFT, as per the Foreign Trade Policy 2015-2020, as well as conditions of compliance with the provisions of Petroleum Act, 1934 (30 of 1934), were not at all complied with by the importer M/s. Janpriya, in respect to the import of SKO made by them, which was sought clearance by them under the aforesaid B/E. Therefore, the said goods required to be treated as “Prohibited Goods” as defined under Section 2(33) of Customs Act, 1962 and accordingly import of such goods without due compliance with the Policy provisions may have to be categorized as “Smuggling” within the meaning of Section 2(39) of the Customs Act, 1962.

1.16. Considering the aforesaid violations of the Policy Provisions in respect of the goods covered vide aforesaid Bill of Entry, the goods pertaining to the same were placed under seizure vide Seizure Memo dtd.03.10.2018, which was served on the importer M/s. Janpriya. The goods so seized handed over for safe custody to the CWC CFS, Kandla under Supratnamda dtd.03.10.2018.

1.17. Pursuant to the specific intelligence available with the DRI, further inquiry was conducted by way of more searches/visits by the officers of DRI at various other premises under different Panchnama and visit note. The list and brief summary thereof is as follow:-

(i) **Visit Note dated 11.10.2018** was drawn by the officers of DRI, Sub-Regional Unit, Jodhpur, informing that the officers visited at the address of M/s. Janpriya, 77B, RIICO Industrial Area, Nagaur-341001, and on enquiry, it was learnt that there was one Cement Depot functioning at the said address; that the owner of Cement Depot was contacted over phone and he informed that he had rented out the said premises for last two and half years and that 77B, RIICO Industrial Area, Nagour situated plot was not owned by M/s. Janpriya. On enquiry with M/s. Janpriya, it was learnt that the unit had been shifted to the new address i.e. Opposite to Corporation Bank, Delhi Gate, Nagaur, Rajasthan -341001, which was evident from the photo taken inside the plot No. 77B, RIICO Industrial Area, Nagaur.
(ii) **Visit Note dated 18.10.2018** was drawn by the officers of DRI, Sub-Regional Unit, Jodhpur, informing that new address of M/s. Janpriya at Opposite Corporation Bank, Delhi Gate, Nagour was visited and found that the plot is surrounded by 20 feet wall and the gate of the Plot was locked; that the owner was contacted over phone, but he was not reachable; that the neighbors of the plot informed that Shri Nawal Kishore Pitti is the owner of the Plot and no activity related to any business was done on the said premises.

1.18. During the course of investigation, the following mobile phones, Laptop and Hard Disk, which were resumed from the respective persons, were taken to the Central Forensic Laboratory, DRI, Mumbai Zonal Unit, Ground Floor, UTI Building, 13, Sir Vithaldas Thackersey Marg, Opp. Patkar Hall, New Marine Lines, Mumbai-400020 for analysis of the data contained therein.

In this regard, **Panchnamas dated 24.12.2018, 26.12.2018 & 27.12.2018**, were also drawn in relation to data retrieval from the electronic devices like Hard Disk, Mobile phones and Laptop, which were resumed/voluntarily surrendered by the persons, as mentioned above. The data stored in some of the mobile phones/electronic devices could be retrieved and exported to the destination two external Hard Disc Drives. The data in those external Hard Discs being huge, it is under process of scanning and under examination.

Further in the course of investigation, mobile phone of Shri R. P. Meena was also resumed and the data from the same has yet to be retrieved and examined.

In the light of the same, department / DRI reserves the right to issue addendum / corrigendum to this notice or a new notice to bring new evidences to light, if felt necessary.

1.19. During the course of investigation of the case, statements of many persons under Section 108 of Customs Act, 1962, with respect to the import of the subject goods were also recorded. The brief of each of such statements are as follow:-
1.19.1. **Statement of Shri Mritunjay Dasgupta, Proprietor of M/s MAT Shipping, Gandhidham** was recorded under Section 108 of the Customs Act, 1962 on 29.08.2018, wherein he inter-alia stated that:-

- All the work relating to clearance of ‘Industrial Composite Mixture Plus’ are given to him by M/s. Shree Sanari Shipping, Gandhidham;
- All the documents like Bill of Lading, Invoice, Packing List, Certificate of Origin (sometimes provided), are being provided on his official email id (matshipingservices@gmail.com);
- After feeding the data in the format of Bill of Entry, the same were forwarded to email address of Shree Sanari Shipping (sss.kdl@gmail.com) for approval;
- After receiving approval from Shree Sanari on his email, the Bill of Entry were filed online;
- When the container arrives on the port, they approach the Customs officials for examination and sampling;
- After arrival of the Test Report from Kandla laboratory, they again approach to Customs for assessment;
- On assessment of Bill of Entry, the duty was being paid by the importer or Shree Sanari Shipping directly online;
- Then they receive Out of Charge from Dock Examination Superintendent of Customs and submit the same to the CWC CFS, Kandla and intimate the same to Shree Sanari Shipping;
- He was providing the customs clearance service to this type of cargo (ICMP, Low Aromatic White Spirit, Mineral Hydrocarbon Oil) since October 2017;
- He was getting the work related to importers M/s V.V. Enterprise, M/s Jay Mata Chintpurni Impex, M/s Janpriya , M/s G.R. Pahwa Enterprise and M/s Shree Sanari Shipping from M/s Shree Sanari Shipping, Gandhidham;
- He had handled total 390 containers till July, 2018;
- He was raising the bill of the agency charges in the name of M/s. Shree Sanari Shipping and they (Shree Sanari Shipping) were paying him his (MAT) charges in the ICICI bank account of M/s. MAT Shipping, Gandhidham;
- On submission of samples in Kandla Lab, he approach the Kandla laboratory and request them to issue the report at the earliest and also request the officer to take care of the final boiling point of the cargo and should be below 240 degree Celsius.
- The instructions regarding the final boiling point was conveyed to him by Shri Virbhadra Rao and Shri Iqbal of Shree Sanari Shipping and he was conveying the Lab officers to issue the Lab Test Report accordingly i.e. below 240 degree Celsius;
• This adjustment was made in the Lab Test Report, because if the final boiling of the material is more than 240 degree Celsius, its CTH will change and the item will fall under the restricted category;

• For adjusting the final boiling point figure in the test report, the amount of Rs. 40,000/- to Rs. 1,00,000/- was fixed, depending on number of containers per Bill of Entry to the Chemical Examiner of Kandla Laboratory;

• This payment were given to Chemical Examiner for mentioning false final boiling point which was other than the factual figure;

• This amount was provided to them by Virbhadra Rao of M/s. Shree Sanari Shipping through him in cash;

• On being asked regarding the sample pertaining to the Bill of Entry No. 7730154 dtd. 21.08.2018 of M/s. Janpriya, he stated that the actual final boiling point of the imported material declared as “Industrial Composite Mixture Plus” was approx. 260 degree Celsius and just not to show the material of restricted nature, the Chemical Examiner was instructed to issue the Lab Test Report showing the final boiling point below 240 degree Celsius and the amount for that purpose was fixed with him to pay around Rs. 1 Lakh and accordingly, he (Chemical Examiner) issued the Lab Test Report which was uploaded online and showing the final boiling point of 239 degree Celsius.

• During the search at his premises, some documents were retrieved from the WhatsApp chat available in his mobile phones and the print out of the same were taken and he had gone through the same.

• He voluntarily submitted two mobile phones for further investigation purpose.

1.19.2. Further Statement of Shri Mritunjay Dasgupta, Proprietor of M/s MAT Shipping, Gandhidham was recorded under Section 108 of the Customs Act, 1962 on 04.10.2018 wherein he inter-alia stated that:-

• He got his customers M/s V. V. Enterprise, M/s Jay Mata Chintpurni impex, M/s Janpriya, M/s. Shagun Enterprises, M/s G.R. Pahwa Enterprise through Shri Iqbalbhai.

• He had obtained KYC details with bank attested signature verification letters and authority letter in favour M/s. MAT Shipping;

• Along with this, copies of documents viz. IEC, PAN card, GST Registration Certificate, Electricity Bill/Telephone Bill for address verification and Aadhar Card/other identity proof of proprietors. He would produce copies of those documents, in respect of the aforesaid importers within two days;

• He did not have direct contact with the importers. He was used to contact them through email of M/s. Shree Sanari Shipping or through Shri Iqbalbhai;
• He had not met any of the above named importers till the case was booked by DRI;

• On being asked as to how he verified if the clients were working at the addresses, he stated that Shri Iqbal bhai told him that he (Iqbalbhai) knew the importers personally and knew that the those importers were working at the given addresses.

• He was shown photocopies of test reports issued by Central Revenues Control Laboratory, New Delhi, in respect of the consignments of “Industrial Composite Mixture Plus” and “Low Aromatic White Spirit” covered under seven bills of entry. Representative samples from those seven consignments were drawn by the officers of DRI as per the proceedings of Panchanama carried out in the premises of CWC Warehouse, Kandla on 31.08.2018 and he was also present during the proceedings of said Panchanama dt. 31.08.2018.

• He has gone through test reports issued by CRCL, New Delhi in respect of above consignments and in each of consignment, the test report confirmed the goods to be meeting requirement of SKO (Kerosene) as per IS 1459:1974 and the parameters tested by the laboratory and its results are also mentioned in each of the above Test Reports; that on being asked, he stated that these are findings of Customs Laboratory and believed the same would be correct.

• On being asked about amount given to the Chemical Examiner Kandla Lab, as stated by him in his earlier statement dated 29.08.2018, he stated that he used to meet Shri R. P. Meena, Chemical Examiner Kandla to get favourable test report;

• On being asked as to who used to take delivery of the import goods after clearance from Customs, he stated that he used to hand over Bill of Entry (Importer Copy) to Shri Iqbal Bhai or Shri Virbhadrarao (Proprietor of M/s. Shree Sanari Shipping) or any other employee of M/s. Shree Sanari Shipping and then it is conveyed to Shri Iqbal bhai or Shri Virbhadrarao;

• Then after he did not look after any work for importers including that of arranging delivery or transportation etc.

1.19.3. Statement of Shri Virbhadrarao, Proprietor of M/s Shree Sanari Shipping was recorded under Section 108 of the Customs Act, 1962 on 29.08.2018 wherein he, interalia, stated that :-

• He is one of the importer of ICMP (Industrial Composite Mixture Plus) at Kandla port and also provide the handling service to other importers of ICMP i.e., M/s. V.V. Enterprise, Delhi; M/s. Jay Mata Chintpurni Impex, Delhi; M/s. Janpriya, M/s. Shagun Enterprise, Rohini, New Delhi and M/s. G.R. Pahwa Enterprise, Punjab etc.;
• The documents for Customs clearance for the imported/export goods including ICMP were being provided to him by the aforesaid importers at his official email id i.e. sss.kdl@gmail.com.

• He was engaged in the business of import of ICMP since December, 2017;

• All the work relating to Customs clearance of ICMP was handled by the CHA M/s. MAT Shipping, Gandhidham;

• All the abovesaid importers of ICMP never directly contact to the abovesaid Custom House Clearing Agent for clearance;

• He was used to receive the import documents of ICMP i.e. Bill of Lading, Invoice, Packing List, Certificate of Origin (sometime provided) from the abovementioned importers, which he forwarded to the CHA – M/s. MAT Shipping, Gandhidham at his official email id : matshippingservices@gmail.com for clearance of ICMP;

• At the time of submission of documents, he had been informed telephonically by the above said importers that final boiling point of the ICMP more than 240 degree Celsius and for that they (M/s. Shree Sanari Shipping) have to manage with Chemical Examiner, CRCL, Kandla at any how to keep the final boiling point less than 240 degree Celsius in the test report and accordingly, he used to convey the same to the clearing agent;

• After that he was informed by the CHA that he had filed the Bill of Entry of the imported goods and he approached to the Customs official for examination and sampling;

• After submission of samples in Kandla Lab, on behalf of him (Shri Virbhadra Rao) or importer, CHA approach to the Chemical Examiner of CRCL, Kandla to issue the report at the earliest and also request the Chemical Examiner to take care of the final boiling point of the cargo and it should be below 240 degree Celsius in any way;

• After dealing with Chemical Examiner, CRCL, Kandla, CHA informed him that Chemical Examiner of CRCL has been demanding Rs. 40,000/- to Rs. 1,00,000/- for issuing test report below 240 degree Celsius and he (Shri Virbhadra Rao) conveyed the same to the concerned importers of ICMP;

• That manipulation was made in the Lab Test Report because if the boiling point of material is more than 240 degree Celsius, its CTH will change and the item will fall under the restricted category;

• The amount for adjusting the final boiling point figure in the Test Report which was appx. between Rs. 40,000/- to Rs. 1,00,000/-, depending on number of containers per Bill of Entry, was given to him (Shri Virbhadra Rao) in cash by the
concerned importers and he handed over those payments to Mr. Mritunjay Dasgupta, Proprietor of M/s. MAT Shipping to give the same to Chemical Examiner for mentioning manipulated final boiling point, which was other than the factual figure;

- After that, the Test Report with the final boiling point less than 240 degree Celsius was issued by Chemical Examiner, Kandla Laboratory, and then the CHA again approach to customs for assessment;

- On assessment of Bill of Entry, the duty was being paid by the importer or him (Virbhadra Rao) directly online;

- Then, CHA inform them about the Out of charge, which was issued by Dock Examination Superintendent (of Customs) and the same being submitted to CWC (Central Warehousing Corporation) CFS, Kandla.

- The CHA raised the bill for the Agency charges in the name of M/s. Shree Sanari Shipping and he was paying the CHA charges in his ICICI bank account;

- Upto August, 2018, he had handled approx. 500 containers of this cargo and out of the same, he imported approx. 60 containers on account of M/s. Shree Sanari Shipping;

- On being asked regarding the sample pertaining to the Bill of Entry No. 7730154 dtd. 21.08.2018 of M/s. Janpriya, he stated that the actual final boiling point of the imported material declared as "Industrial Composite Mixture Plus (ICMP)" was appx. 260 degree Celsius and in order to not showing the material of restricted nature, the Chemical Examiner was instructed to issue the Lab Test Report showing the final boiling point below 240 degree Celsius; that the amount for this purpose was fixed to Rs. 1 lakh around and accordingly, the Chemical Examiner issued the Lab Test Report which was uploaded online and showing the final boiling point of 239 degree Celsius.

1.19.4. Statement of Shri Virbhadra Rao, Proprietor of M/s Shree Sanari Shipping was recorded under Section 108 of the Customs Act, 1962 on 03.10.2018 wherein he, interalia, stated that :-

- They generally import Heavy Melting Scrap (HMS) from different gulf countries, Industrial Composite Mixture Plus, Light Viscosity Fuel Oil, Low Aromatic White Spirit from UAE from Jebel Ali port at Kandla Port;

- Their main customers are (1) M/s. G.K.N. Enterprises, KASEZ, (2) M/s. Janpriya, Nagaur, Rajasthan and (3) M/s. Radhe Trade, Gandhidham;

- The rate is decided based on total import cost including all expenses plus profit margin;
• The rate of the product does not depend on specifications and as per his knowledge the specifications of ICMP/LAWS does not vary significantly;

• Sometimes, they receive the orders from the Customers along with the specification of a particulars product; however, he declare the specifications to his buyers, if they require the same or not;

• He enquire from his overseas supplier regarding the specifications of the product and based on requirement of their buyers, confirm the orders;

• Their main suppliers are (1) M/s. Kite International FZE, Sharjah, (2) M/s. Sunrise Petroleum FZE, Sharjah, (3) KTHBAN Al MRMOM Trade, Oman;

• CHA advise them regarding CTH of the product based on trends of clearance of similar item from the Kandla Port, as it was the responsibility of CHA to get the goods cleared after necessary customs procedure;

• CHA prepare the check list for Bill of Entry, however, they forward it to his (Virbhadra Rao) mail for further verification or for any correction at his (Rac) side. He check and send the final check list to CHA for filing the Bills of Entry;

• The CHA prepares the check list and send it to him (Rao) for approval; CHA give all details of day to day progress of the clearance of the cargo to him;

• From October 2017, they have imported 66 flexi tanks of ICMP / LAWS till issue of SCN;

• As per his knowledge, ICMP is used in paint industry;

• The main characteristics of ICMP are density- 0.785- 0.795 gm/cc, Final boiling point- should be less than equal to 240 degree Celsius;

• The name of major suppliers of ICMP - (1) M/s Kite International FZE, Sharjah & (2) M/s Sunrise Petroleum FZE, Sharjah;

• Most of the time, he directly try to finalize the deal on phone, but if required, he uses his friend Shri Iqbal Shaikh, who is a broker, having good contact with suppliers in Dubai;

• These products were further sold to retail market directly without any further value addition or any other process;

• As per his knowledge, ICMP or LAWS are freely imported items;

• Freely importable items can be imported without any specific licence or terms and conditions and for import of restricted items, specific licenses or terms and conditions are required to be complied with;
• On being asked that in Customs Tariff Heading (CTH), there is no specific word like "Industrial Composite Mixture Plus" or "Low Aromatic White Spirit, then how do they classify it in CTH, to which he replied that as per the earlier trends at this port and accordingly suggested by our CHA, they started using the term "Industrial Composite Mixture Plus" or "Low Aromatic White Spirit".

• The load port analysis reports were kept by them in their respective files, however the same were taken over by DRI during search of his office premises;

• He was shown his earlier statement dated 29.08.2018 and he agreed completely with it;

• On being asked the names of importers, who asked him (Rao) to manage Chemical Examiner of CRCL, Kandla for keeping the Boiling point below 240 degree Celsius, to which he stated the names as: M/s V. V Enterprises, New Delhi, M/s Jai Mata Chintpurni Impex, New Delhi, M/s G. R Pahwa Enterprises, Ludhiana, M/s Janpriya, Nagaur, Rajasthan, M/s Sagun Enterprises, New Delhi;

• On being asked the name of Chemical Examiner of CRCL, Kandla who has demanded money for keeping the Boiling point below 240 degree Celsius, to which he stated that Shri R. P. Meena, Chemical Examiner CRCL, Kandla had demanded the said amount per sample to keep the Final Boiling Point below 240 degree Celsius;

• He used to collect money from the above said importers and give it to Shri Mitunjay Dasgupta of CHA firm M/s. MAT Shipping, for giving the same to Shri R. P. Meena, Chemical Examiner CRCL, Kandla as per the deal

• He did not remember the exact figure, however from October, 2017 to till issue of SCN, he had given around Rs. 7 lakh to Rs. 8 lakh to Shri Mitunjay Dasgupta for further handing over to Shri R. P. Meena, Chemical Examiner, CRCL, Kandla;

• He used to receive money in cash through representatives of importers and he further used to give cash to Shri Mitunjay Dasgupta, CHA MAT Shipping, for handing over the same to Shri R. P. Meena, Chemical Examiner CRCL, Kandla as per deal.

1.19.5. Statement of Shri Virbhadra Rao, Proprietor of M/s Shree Sanari Shipping was recorded under Section 108 of the Customs Act, 1962 on 04.10.2018 wherein he, inter alia, stated that :-

• For sale of the imported Industrial Composite Mixture Plus/Low Aromatic White Spirit, there are three main customers viz. M/s Janpriya, Nagaur, Rajasthan, M/s Radhe Trade, Gandhidham and M/s GKN Enterprises, KASEZ, Gandhidham;

• He was contacting Shri Naval Pitti for the firms M/s Janpriya, Nagaur, Rajasthan and M/s Radhe Trade, Gandhidham, as Nawal Pitti is Proprietor of M/s Janpriya,
Nagaur, Rajasthan and M/s Radhe Trade, Gandhidham is also being handled by Shri Nawal Pitti as the said firm is registered in the name of his (Nawal Pitti) wife;

- Further he was contacting Shri Srinivas, Proprietor of M/s. GKN Enterprises, KASEZ, Gandhidham;

- He also sold the cargo on High sea sale basis, under Warehouse Bill of entry and Ex-CFS Kandla Sale where there was no need to appoint the transporter on his part.

- On being shown a Made Up File bearing number File-2 (marked S:\No. 2 and MAT SHIPPING) which is containing printouts of WhatsApp chat (Page No. 1 to 11) [RUD No.14], he agreed that those WhatsApp chats had taken place between him and Shri Mirrunjay Dasgupta of CHA firm M/s. MAT Shipping in relation to clearance of ICMP/LAWS through Customs, Kandla and dealing of money for getting favourable test results through Chemical Examiner of CRCL, Kandla;

- In this WhatsApp Chat, they (himself and Mirrunjay Dasgupta) were discussing about the quantum of money to be given to the Chemical Examiner CRCL, Kandla in lieu of favourable test report;

- At the Word “NORMAL-RS. 40000/-” used in the chat means that Rs.40,000/- has to be given to the Chemical Examiner and the word “SPECIAL-RS. 100000/-” or “SPECIAL-RS. 125000/-” means that Rs. 1,00,000/- or Rs 1, 25,000/- as the case may be, has to be given to the Chemical Examiner CRCL, Kandla for manipulating test result in favour of importers i.e., to keep the Final Boiling Point of imported products (ICMP or LAWS) below 240 degree Celsius;

- On being asked about the WhatsApp chat on page No.10, wherein it is written “THIS TIME HE IS DEMANDING 2 PER SAMPLE”, he explained that there Shri Mirrunjay Dasgupta was telling him (Rao) that Chemical Examiner of CRCL, Kandla was demanding Rs. 2 Lakh per sample for giving favourable test results of future samples;

- On being specifically asked about the name of such Chemical Examiner of CRCL, Kandla, he reiterated that the name of that Chemical Examiner is Shri R.P. Meena.

1.19.6. Statement of Shri Iqbal Rahman Shaikh, Representative of M/s Shree Sanari Shipping was recorded under Section 108 of the Customs Act, 1962 on 29.08.2018 wherein he stated that :-

- He is the representative of M/s Shree Sanari Shipping and Proprietor of M/s Abrar Forwarder;

- His two sons Ashfaq Sheikh and Abrar Sheikh both involved in the transport business of M/s. Abrar Forwarder;
• He looks after all the work relating to management, buying and selling along with Shri Virbhadra Rao in M/s Sanari Shipping and in absence of Shri Virbhadra Rao, he looks after all the work of M/s. Sanari Shipping;

• Various parties i.e. M/s Janpriya, Nagaur, M/s. Radhe Trade, Gandhidham, M/s V. V Enterprises, Delhi, M/s G. R. Pahwa, Ludhiana, M/s. Vishal Impex, Delhi, M/s Jay Mata Chintpurni Impex, Delhi, etc. had appointed M/s. Sanari Shipping as handling agent for the Customs handling and Customs clearance of ICMP;

• He alongwith Shri Virbhadra Rao received all the documents like Bill of Lading, Invoice, Packing List, Certificate of Origin (sometime provided) on their official email id sss.kdl@gmail.com from various companies and provided the same to M/s. MAT Shipping on their official email id matshipingservices@gmail.com;

• M/s. MAT Shipping was responsible for all the work related to Custom handling and Customs clearance of ICMP;

• On assessment of Bill of Entry, the duty was paid either by the importer or by M/s. Shree Sanari Shipping directly online;

• The CHA Charges to M/s. MAT Shipping were paid by M/s. Shree Sanari Shipping;

• On behalf of Shri Virbhadra Rao, Shri Mritunjay Dasgupta was responsible for follow up of samples testing in Kandla Lab;

• Shri Virbhadra Rao instructs Shri Mritunjay Dasgupta to tie up with the Chemical examiner at Custom House Laboratory, Kandla to take care of the final boiling point of the cargo, declared as ICMP and to ensure that it should be below 240 degree Celsius;

• The adjustment was made in the Lab Test Report because if the boiling point of the cargo is more than 240 degree Celsius, its CTH would change and the items would fall under the restricted category;

• The amount for manipulation of final boiling point figure in the Test Report was fixed between Rs. 40,000/- to Rs. 1,00,000/- depending on number of the containers per Bill of Entry to Chemical Examiner of Kandla Laboratory;

• Those payments were given to Chemical Examiner for mentioning manipulated final boiling point, which was other than the actual final boiling point;

• That amount was provided to them (Chemical Examiner, Kandla) through Shri Mritunjay Dasgupta, Proprietor of M/s. MAT Shipping by Virbhadra Rao of M/s. Shree Sanari Shipping;

• On being asked regarding the sample pertaining to the Bill of Entry No. 7730154 dtd. 21.08.2018 of M/s. Janpriya, he stated that the actual boiling point of the imported material declared as “Industrial Composite Mixture Plus (ICMP)” was apprx. 260 degree Celsius and just not to show the material of restricted nature, Shri Virbhadra Rao instructed Shri Mritunjay Dasgupta to instruct the Chemical Examiner.
Examiner to issue the Lab Test Report showing the boiling point below 240 degree Celsius;

- The amount for this purpose was fixed with Chemical examiner and it was decided to pay around Rs. 1 lakh per test report;
- Accordingly, he (Chemical Examiner) issued the Lab Test Report, which was uploaded online and showing the boiling point of 239 degree Celsius.
- He also submitted his mobile phone for further investigation.

1.19.7. Statement of Shri Iqbal Rahman Shaikh, Representatives of M/s Shree Sanari Shipping was recorded under Section 108 of the Customs Act, 1962 on 04.10.2018 wherein he stated that :-

- M/s. Shree Sanari Shipping was established in 2005 and it is the proprietorship firm;
- He did not hold any post in this company but on mutual understanding, he looks after all the work of M/s. Shree Sanari Shipping;
- He was not authorized to sign any documents on behalf of M/s. Shree Sanari Shipping;
- M/s. Shree Sanari Shipping generally import Heavy Melting Scrap (HMS) from different gulf countries, Industrial Composite Mixture Plus, Light Viscosity Fuel Oil, Low Aromatic White Spirit from UAE from Jebel Ali port at Kandla Port;
- Main customers of M/s. Shree Sanari Shipping are (1) M/s. G.K.N. Enterprises, KASEZ, (2) M/s. Janpriya, Nagaur, Rajasthan and (3) M/s. Radhe Trade, Gandhidham;
- Normally M/s. Shree Sanari Shipping sell the product on High Sea Sale basis by adding 2% profit margin;
- The rate of the product does not depend on specifications;
- His main suppliers are (1) M/s. Kite International FZE, Sharjah, and (2) M/s. Sunrise Petroleum FZC, Sharjah;
- They contact the supplier and the supplier send them the Proforma Invoice on email id sss.kdl@gmail.com and on being agreed mutually, the rates were decided;
- The rates depend upon the price of Crude Oil in the international market;
- M/s. Shree Sanari Shipping used to place orders for Final Boiling Point to be below 240 and density to be 79;
- Normally, the CTH is mentioned on the Bill of Lading and CHA also advised them regarding CTH of the product based on the trends of clearance of similar item from the Kandla Port;
CHA prepared the checklist for Bill of Entry and forward it by email for further verification or for any correction and Shri Virbhadr of M/s. Shree Sanari Shipping approves it;

- They had been importing ICMP from October 2017
- ICMP is used in paint industry;
- The main characteristics of ICMP is that the colour of ICMP is white, 210 degree at 90% recovery and final boiling point should be less than or equal to 240 degree;
- Most of the time, they directly try to finalize the deal on phone with suppliers in Dubai;
- The imported products do not further going through any process (like filtration, blending or other process) and they sell it ex-Kandla and customer arrange its own logistics and pick the goods from concerned CFS;
- ICMP or LAWS is freely imported items;
- On being asked that in Customs Tariff Heading (CTH), there is no specific word like “Industrial Composite Mixture Plus” or “Low Aromatic White Spirit, then how do they classify it in CTH, then he stated that as per the earlier trends at this port and accordingly suggested by their CHA, they started using the term Industrial Composite Mixture Plus” or “Low Aromatic White Spirit and classify it in CTH.
- The load port analysis reports were kept in their respective files and the same were taken over by DRI during search of M/s. Shree Sanari Shipping office premises;

He was shown his earlier statement dated 29.08.2018 and he agreed completely with it. Then after upon being asked, he stated that

- On being asked about the names of Importers, who asked him to manage Chemical Examiner of CRCL, Kandla for keeping the Boiling point below 240 degree Celsius, he stated that no importer asked him about this, because these matters were being dealt by Shri Virbhadr Rao of M/s. Shree Sanari Shipping;
- He did not know the name of Chemical Examiner of CRCL, Kandla, who has demanded money for keeping the Final boiling point below 240 degree Celsius, because he had not dealt with it;
- They do not appoint any transporter for movement of goods and the delivery of the goods is direct from Kandla (ex-Kandla) to the concerned customers and the same is collected from Kandla Port / concerned CFS by their customers, by appointing their own Logistics.

1.19.8. Statement of Shri Nawal Kishore Pitti, Proprietor of M/s Janpriya, Nargar, Rajasthan was recorded under Section 108 of the Customs Act, 1962 on 03.10.2018 wherein he stated that :-
• He is the Proprietor of M/s. Janpriya, 77B, RRICO Industrial Area, Nagaur, Rajasthan-341001 was established in 2011 and it is the Proprietorship firm;

• They had never exported any goods and they were only importing goods like iron-scrap, Industrial Composite Mixture Plus (ICMP) from Kandla Port only; and he assured to provide the data of the cargo imported by them during last five years by 10 October, 2018;

• Earlier they were importing iron scrap from Gulf Countries, but they suffered huge loss in the same, then later on, on the basis of market analysis that ICMP was in demand in Paint Industry and further as per discussion with Shri Iqbalbhai of M/s. Shree Sanari Shipping, they started importing the Industrial Composite Mixture Plus;

• Their main customers are two parties of Surat viz. M/s. Growthcart India Pvt. Ltd., 811, Luxuria Business Hub, Near Dunas Resort, Magdalla, Surat & M/s. Yes Corporation, 18, Daxsheshvar Nagar, Avirbhav, Pandesara, Surat and one party in Gandhinagar namely M/s. GKN Enterprises, 2nd Floor, Plot NO. 233, Ward 12B, Atmaram Circle, Police Station Road, Gandhinagar;

• They never receive orders from their customers along with the specification of a particular product;

• The rates are fixed with the customer and never varies with specification of the material imported or supplied to them;

• There are two main suppliers from whom they import ICMP namely M/s. Sunrise Petroleum FZC, Sharjah, UAE and M/s. Kite International, UAE;

• Usually they ask Shri Iqbalbhai of M/s. Shree Sanari Shipping about the price of ICMP and he (Iqbalbhai) provides them the rate and then they negotiate for 2-5 $ and in the way, the rates are decided;

• Their only requirement is final boiling point between 240 to 260 and the rates are generally fixed and do not vary;

• They place order for ICMP with specification only for final boiling point which should be between 240 to 260;

• They had appointed M/s. Shree Sanari Shipping for all the work on port and later on, the entire work is being looked after by M/s. Shree Sanari Shipping;

• They had appointed M/s. Shree Sanari Shipping for appointing CHA also and rest they don’t know because they receive the bills from M/s. Shree Sanari Shipping;

• They email the import documents to M/s. Shree Sanari Shipping and further they carry on with further processing;

• For the last 5-6 months, they were importing ICMP;

• ICMP is used in paint industry and they sell it to traders;

• They only knew that the ICMP should have final boiling point between 240 to 260 and regarding specification, they don’t know;
They never contacted suppliers directly and they contact & negotiate with Shri Iqbalbhai of M/s. Shree Sanari Shipping;

The imported products do not go through any further process (like filtration, blending or other process) and they only did trading of ICMP;

As per his knowledge, ICMP is freely imported items;

On being asked that in Customs Tariff Heading (CTH), there is no specific word like “Industrial Composite Mixture Plus” Spirit, then how do they classify it in CTH, then he stated that they don’t have much idea about CTH and they knew Shri Iqbalbhai of M/s. Shree Sanari Shipping, who told them that ICMP is being imported freely and under CTH No. 27101990, so they were importing under this heading;

Normally the analysis report of ICMP comes with Bill of Lading and he will provide the same within a week;

The supplier provides them the analysis report of ICMP with Bill of Lading and because of the goodwill of the supplier, they keep on ordering.

He was served with the seizure Memo dt.03.10.2018 and he had received the same.

He was shown the test report of the samples drawn from Container No. CHLU 2799578 under Panchnrama dated 31.08.2018 filed vide Bill of Entry no. 7730154 dated 21.08.2018 at Central Warehousing Corporation (CWC), CFS, New Kandla, issued by Central Revenue Control Laboratory (CRCL), New Delhi vide C.No. 35/Cus/2018-19/CL-127 DRI dt. 28/09/2018. Then after, on being asked, he stated that

as per the test report of CRCL, the cargo meet the requirement of parameters of Superior Kerosene Oil (SKO)

He agreed that the Superior Kerosene Oil (SKO) is restricted item and can only be imported through State Trading Enterprises (STE) as per CTH and FTP;

On being asked as to whether upon perusing the test report of CRCL, New Delhi, does he agree that they had imported the SKO, declaring the same as ICMP, to which he didn’t agree and stated that they had ordered for ICMP only;

As per test report of CRCL, New Delhi, the final boiling point of the sample is 252 (which is above 240);

He had not misdeclared anything;

He had not done any kind of fraud and he generally took profit margin of Rs.300-Rs.500 per MT only;

The delivery of the goods is direct from Kandla (ex-Kandla) to the concerned customers i.e., in Surat and Gandhidham and the same is collected from Kandla Port / concerned CFS by their Customers, by appointing their own Logistics.

He had not paid any additional amount to anybody for manipulating the test report.
1.19.9. **Statement of Shri Nawal Kishore Pitti, Proprietor of M/s Janpriya, Nagaur, Rajasthan** was recorded under Section 108 of the Customs Act, 1962 on 04.10.2018 wherein he stated that:

- They purchase ICMP from their supplier (from Dubai) at the rate of 600-650 USD per MT depending on the price of Crude oil in International market;
- They sell ICMP to their customers in India at the rate of Rs. 48,000- Rs.50,000 per MT;
- M/s. Shree Sanari Shipping never asked him any additional amount for manipulating in test reports.

He submitted a Mobile Phone for further investigation purpose.

1.19.10. **Statement of Shri Nawal Kishore Pitti, Proprietor of M/s Janpriya, Nagaur, Rajasthan** was recorded under Section 108 of the Customs Act, 1962 on 09.01.2019 wherein on being asked, he stated that:

- Due to health issue, he could not submit the documents and he had submitted the data vide his letter dtd.09.01.2019;
- The documents of load port were lying in the office of M/s. Sanari Shipping and he would submit the same within 4-5 days by approaching them;
- They had not received any kind of complaints from their customers so, they did not need to instruct the supplier of ICMP;
- Moreover, he had no direct contact with the foreign supplier;
- He approach only to Shri Iqbal bhai of M/s. Shree Sanari Shipping and instruct him to provide the good quality of ICMP and no contamination should be there in the goods;
- He had not complied with the provisions of the Petroleum Act, 1934;
- He does not know Shri R.P. Meena, Chemical Examiner Gr-I in Customs House Laboratory Kandla and he had never met him;
- He does not know Shri Mritunjay Dasgupta, Custom Broker, M/s. MAT Shipping, Gandhidham and he only knew Shri Virbhadra Rao & Shri Iqbal Rahman of M/s. Shree Sanari Shipping in the matter of import of ICMP;
- On being asked about giving the authority to Shri Mritunjay Dasgupta, Custom Broker, M/s. MAT Shipping, Gandhidham for filing the Bill of Entry no. 7730154 dated 21.08.2018 at Kandla Port, he stated that he doesn’t know about it and they had appointed Shri Iqbal Rahman of M/s. Shree Sanari Shipping for all the work on port and later on, the entire work was being looked after by him only and they received the bill from M/s. Shree Sanari Shipping only;
- On being asked about the approval of the checklist of Bill of Entry No. 7730154 dated 21.08.2018 filed at Kandla Port, he stated that he had not given any approval to checklist of Bill of Entry No. 7730154 dated 21.08.2018 filed at
Kandla Port and the same had been dealt by Shri Iqbal Rahman of M/s. Shree Sanari Shipping;

- M/s. Shree Sanari Shipping or anybody else never asked for any additional amount (other than the usual charges) in lieu of manipulating in test reports for clearing the cargo of ICMP;
- He did not appoint any transporter for movement of the goods; the customers appointed their own Logistics for picking the cargo from Kandla Port to their destination;
- On being asked about the location of his office address, he stated that till June-July 2018, the office of M/s. Janpriya was at “77B, RIICO Industrial Area, Nagaur-341001”, but after that due to family issues, they have shifted their new office at “M/s. Jan Priya, Delhi Gate A Road, Near Vijaya Bank, Peer Jado Mohalla, Nagaur – 341001”;
- they had already applied for amendment in address in GST Department as well as DGFT (for IEC) through their accountant, Shri Santoshi Lal;

1.19.11. Statement of Shri Prabhat Mangal Verma, Assistant Chemical Examiner in Customs House Laboratory, Kandla was recorded under Section 108 of the Customs Act, 1962 on 01.11.2018 wherein he stated that :-

- Industrial Composite Mixture Plus (ICMP) and Low Aromatic White Spirit (LAWS) are normally categorized under Petroleum Hydrocarbons as per general practice and they may be used in paint, dry-clean or textile industry etc.;
- Since ICMP and LAWS are considered under the category ‘Petroleum Hydrocarbon Solvent’, the parameters fixed for ‘Petroleum Hydrocarbon Solvent’ as per IS (Indian Standard) 1745-1978, are kept in view while deciding whether the particular goods is ICMP/ LAWS, or not;
- Industrial Composite Mixture Plus (ICMP) and Low Aromatic White Spirit (LAWS) is found normally colourless or off white, its density range is around 0.78 to 0.795 gm/ml at 15 degree Celsius, Final Boiling Point is in range of 140 to 240 degree Celsius, Smoke Point- is normally not checked, Flash Point is 43 to 49 degree Celsius;
- The parameters of all the Petroleum Hydrocarbon Solvents are in almost nearby ranges however, as regards the SKO which is colourless in nature, the smoke point is normally above 18 mm, the Final Boiling Point for SKO is above 240 degree Celsius to 300 degree Celsius as per his knowledge and as per IS:1745-1978 and the Flash Point for kerosene is minimum 35 degree Celsius;
- For SKO, the Final Boiling Point is above 240 to 300 degree Celsius, whereas the same for ICMP/LAWS is around 148 to 240 degree Celsius;
- He does not issue Test Reports and only test and submit his observations before the Chemical Examiner Grade-I or Grade-II for issuing test report on the basis of his observations;
• He does not know Shri Mritunjay Dasgupta of Customs Broker firm M/s. MAT Shipping or Shri Virbhadra Rao Illa of M/s. Shree Sanani Shipping;
• He has not met anybody else regarding alteration/modification in any test reports related to ICMP / Low Aromatic White Spirit and nobody ever tried to put some influence upon him or tried to lure him by offering some monetary benefit;
• There is no such incident where Shri R.P. Meena or anybody else has instructed him to alter/modify the test results in respect of samples tested at Kandla Customs House Laboratory, Kandla

He was shown copy of test result dated 28.08.2018 in respect of Bill Of Entry No. 7730154 dated 21.08.2018 alongwith Test Memo No. 1033659 dtd. 24.08.2018/Live Consignment of Appraiser of Customs, Kandla and observation sheet/description issued by Customs House Laboratory, Kandla. On being asked, he stated that
• His work is limited to testing of sample and putting up the observations only and in observation sheet, the Report portion totally pertains to the Chemical Examiner Grade-I or Grade-II or Joint Director, who are authorized to issue the test reports;
• In this case, as per direction of his senior Shri R.P. Meena, he put the observations in his own handwriting on the observation sheet and the other typed facts of report portion is a fix printed Proforma for report;
• Sometimes, the test report issuing officer himself writes/corrects the test report, or sometimes the same is written by Assistant Chemical Examiner or Chemical Assistant.

He was shown test reports No. C.No. 35/Cus /2018-2019/CL-127 DRI dtd. 18/09/2018 dated 28.09.2018 of Chemical Examiner Grade-II, CRCL, New Delhi in respect of Test Memo nc. 08/2018-19 dated 14.09.2018 of DRI, Gandhidham w.r.t. second sample of goods covered under Bill of Entry No. 7730154 dated 21.08.2018 filed at CWC, CFS, New Kandla. He was asked to offer comments as to how the Final Boiling Point for second sample of same goods is reported as 252 degree Celsius and the goods of second sample have been decided as SKO by the CRCL, New Delhi. On being asked, he stated that
• He had put up the correct observations to the best of his knowledge and the test reports were decided by concerned authority of his office and he cannot comment on the test result of CRCL, New Delhi.

1.19.12. Statement of Shri Rajendra Prasad Meena (Shri R.P. Meena), Chemical Examiner Gr-I in Customs House Laboratory, Kandla was recorded under Section 108 of the Customs Act, 1962 on 24.12.2018 wherein he stated that :-
• Industrial Composite Mixture Plus (ICMP) as well as Low Aromatic White Spirit (LAWS) are the Petroleum based solvent and are the trade name of the commodities; that used in paint industry, may be in Dry-cleaning industry;
• There is no technical literature available for Industrial Composite Mixture Plus (ICMP);
• As regards, the Low Aromatic White Spirit (LAWS), there is no specific literature for the same also in its specific name, but the Petroleum Hydrocarbon Solvent, there is specific IS standard 1745 available, in which there are different criteria to classify the said product as Low Aromatic Solvent or High Aromatic Solvent as the case may be.
• Since there is no such parameters for ICMP and LAWS and as per the queries, the parameters fixed for ‘Petroleum Hydrocarbon Solvent’ as per IS (Indian Standard) 1745-1978, are kept in view while deciding it;
• There are no specific prescribed parameters of ICMP/LAWS, however, they used to test the sample (for ICMP / LAWS) in their Lab in the light of IS (Indian Standard) 1745-1978; so, as he understood the nature of Industrial Composite Mixture Plus (ICMP) and Low Aromatic White Spirit (LAWS) are like petroleum hydrocarbon solvents and it is colorless; it’s density range, distillation range, flash points are matching with Petroleum Hydrocarbon Solvent;
• Prior to the allocation of the Chapter 27 to him, also the import of LAWS being made at Kandla and the testing standards/parameters set out in the previous cases have been continued by him without any major change therein;
• So far ICMP is concerned, he was not aware about any previous imports in the said name and its previous standard of testing, but what he understood, the ICMP is also matching with the standards of LAWS hence, the parameters equal to the parameters for testing of LAWS are being maintained;
• The query being raised by the Custom Assessing officers are the same for ICMP and LAWS, which gave implied requirement of testing.
• SKO is also a Petroleum Hydrocarbon and the same is in almost nearby ranges of Solvent, although no specific parameters are provided for SKO as Solvent.

1.19.13. Statement of Shri Rajendra Prasad Meena (Shri R.P. Meena), Chemical Examiner Gr-I in Customs House Laboratory, Kandla was recorded under Section 108 of the Customs Act, 1962 on 27.12.2018 wherein he stated that:-
• As per Condensed Chemical Dictionary, Kerosene is a water-white oil liquid, strong odour with Density 0.81 gm/ml, Boiling Range – 180-300 degree Celsius, Flash Point- 100-150 Fahrenheit (37.7-65.5 degree Celsius), auto ignition temperature – 444 Fahrenheit (228 degree Celsius). Combustion properties can be improved by a proprietary hydro-treating process involving a selective catalyst;
• As per US EPA, Kerosene is the substance in this category are complex petroleum derived substances have Boiling Range of approximately 302 to 554 degree Fahrenheit (150-290 degree Celsius) and a carbon range of approximately C9-
C16. CAS (Chemical Abstracts Service) No. of Kerosene is 8008-20-6 and API Gravity is 41.8-44.9, Aromatic Content: 15.5-19.6 Vol %, Olefin Content: 1.3-2.5 Vol %, Saturated Content: 79-82 Vol %, Distillation in degree Fahrenheit: 10% - 320-377 & Final- 468-538 (10% - 160-192 & Final- 242-281 in degree Celsius);

- The major components of the kerosene are branched and straight chain paraffins and naphthalenes (cycloparaffin), which normally account for 70% by volume. Aromatic hydrocarbons such as alkyl benzenes (single ring) and alkyl naphthalenes (double ring) do not normally exceed 20% by volume of kerosene. Olefins are usually not present at more than 5% by volume;

- As per BIS for Kerosene, the material shall consist of refined petroleum distillate; it shall be free from visible water, sediment and suspended matter. Inorganic Acidity – Nil; Distillation: a) Percent recovered below 200 degree Celsius, Min – 20 b) Final boiling point, degree Celsius, Max – 300; Flash Point, degree Celsius, Min – 35 ; Smoke Point, mm. Min - 18; Total Sulphur, percent by mass, Max – 0.25;

- The distillation range is a deciding parameter for petroleum hydrocarbons and ICMP, LAWS & SKO are petroleum hydrocarbons;

- For issuing test report of ICMP / LAWS, they check its Distillation range, Flash point and Density;

- There is no such requirement available to decide the sample as ICMP / LAWS, moreover, for Low Aromatic Solvent, Distillation range: Initial boiling point min. 145 degree Celsius and Final boiling point max. 205 degree Celsius; Flash Point: 35 degree Celsius; and Aromatic Content max. – 40%;

- For test report of SKO in Kandla Customs Laboratory, they check Inorganic Acidity, Distillation Range, Flash Point and Smoke Point and as per BIS, there is no specific minimum range of SKO in Final Boiling Point but maximum range of SKO in Final Boiling Point is clearly defined; so, in this manner, it was difficult to give test report; that in order to remove confusion, they started following the standards of US EPA (United States Environmental Protection Agency) with the permission of the Joint Director in which the Final Boiling Point range is 468-538 degree Fahrenheit (242-281 in degree Celsius).

He was shown copy of test report dated 28.08.2018 in respect of Bill Of Entry No. 7730154 dated 21.08.2018 alongwith Test Memo 1033659 dtd. 24.08.2018 of Customs, Kandla and observation sheet /description issued by Office of Customs House Laboratory, Kandla and he carefully perused it and put his dated signature on it. On being asked, he stated that

- As regards the process to decide the Final Boiling Point in respect of this particular sample, first of all the sample goods was taken in a distillation flask of 100 ml and then, it was heated slowly on a temperature starting from 80 degree Celsius. The temperature is increased thereafter and when the first drop was
distilled, the temperature is noted as Initial Boiling Point, which was 150 degree Celsius for this particular sample. Thereafter, the temperature was increased gradually and the distilled quantity of sample goods was noted down at various intervals such as 10 ml, 20 ml and so on. When 95 ml and above quantity was distilled, the highest temperature point was noted as Final Boiling Point which was 239 degree Celsius in this case. But all this procedure was carried out by the Asstt. Chemical Examiner / Chemical Asstt.

- On being asked that on what basis, he had proposed that “It is other than light oil/SBPS/ATF/HSD/LDO in respect of above shown test report. The Distillation range obtained for the sample is not in agreement as per IS: 1745-1978 for Low Aromatic Solvents.”, he stated that prior to him, this observation i.e., “It is other than light oil/SBPS/ATF/HSD/LDO. The Distillation range obtained for the sample is not in agreement as per IS: 1745-1978 for Low Aromatic Solvents.” had been written in the test report at Customs House Kandla Laboratory since long and he had been continuing the same practice without any major change therein.

- They followed the ASTM D-86 method for conducting the test at Customs House Kandla Laboratory and gave the correct test report on the basis of observations to the best of his knowledge and cannot comment on that.

- He knew Shri Mritunjay Dasgupta (commonly known as “Dass”) of M/s. MAT Shipping since June 2018 around as he severally visits the Custom House Kandla Laboratory, but did not know Shri Virbhadra Rao Illa of M/s. Shree Sanari Shipping;

- Shri Dass sometimes approach the Registration Section of Customs House Kandla Laboratory and sometimes to him for early release of test report;

- He has normal relations with Shri Mritunjay Dasgupta and has sometimes contacted Shri Dass regarding multi-vitamin tablets for self-consumption and other than this, he has never contacted Shri Dass for any other thing;

- He has neither met anybody regarding alteration/modification in any test reports related to ICMP / Low Aromatic White Spirit nor anybody ever tried to put some influence upon him or tried to lure him by offering some monetary benefit.

- He submitted his mobile phone for further investigation purpose.

1.19.14. Statement of Shri Rajendra Prasad Meena (Shri R.P. Meena), Chemical Examiner Gr-I in Customs House Laboratory, Kandla was recorded under Section 108 of the Customs Act, 1962 on 28.01.2019 wherein he was shown two sets of documents related to Test Reports by CH Kandla & CRCL, New Delhi and he carefully observed these two sets and put his signatures on the same and the details are as follow:-
On being asked to explain why there is a difference in test results Customs House Laboratory, Kandla and CRCL, New Delhi for the same kind of goods and in his reply, he stated that:

- Both the tests had been performed by two different Asstt. Chemical Examiner/Chemical Asstt.;
- So far as his reports are concerned, he issued the test reports on the basis of the observation sheet / analysis, as provided to him by Asstt. Chemical Examiner / Chemical Asstt. after conducting the test on the goods and he gave the correct test report on the basis of observations and the same also had been verified by the Joint Director (JD), CH Kandla Laboratory;
- The CRCL might have some different and sophisticated instrument for conducting the test, which might result to change in the test report and he had no comments on it;
- There is no fix guideline or prescribed procedure or SOP (Standard Operating Procedures) was issued by CRCL Hqrs New Delhi for testing the goods. So, different practices were pursued by different laboratories for testing the goods on the basis of the technical literature available with them.

He was shown further three sets of documents related to Bill of Entry no. 4671812 dated 04.01.2018; 6621367 dated 01.06.2018 & 7575228 dated 09.08.2018 alongwith Test Memo 1022422 dated 04.01.2018, 1029126 dated 04.06.2018 & 1032964 dated 10.08.2018 respectively of Customs, Kandla and their observation sheet /description issued by Office of Customs House Laboratory, Kandla. On being asked that why there has been a change observed in the test report of the CH Kandla Laboratory issued for the similar type of goods which have imported before and after the investigation by DRI and in his reply, he stated that,

- He issued the test reports only on the basis of the analytical findings and observations and further cannot comment on this.
- He had no idea about Shri Virbhadra Rao and his firm, M/s. Shree Sanari, Gandhidham and no importer and no Custom Broker approached him regarding alteration/modification in Final Boiling Point in the test reports related to ICMP / Low Aromatic White Spirit.

He was shown the statements of Shri Mritunjay Dasgupta, Custom Broker & Proprietor of M/s. MAT Shipping, Gandhidham recorded on 29.08.2018 & 04.10.2018 and Shri Virbhadra

He was also shown the printouts of WhatsApp chat of Shri Virbhadra Rao Illa, Proprietor of M/s. Shree Sanari Shipping, Gandhidham. On being asked that whether he asked for considerations from Shri Mritunjay Dasgupta, Custom Broker for keeping the final boiling point of ICMP / LAWS below 240 degree centigrade and did not issue the factual test report of ICMP / LAWS imported by six importers, for whom Shri Mritunjay Dasgupta had filed the Bills of Entry and in his reply, he stated that,

- He did not ask any considerations from Shri Mritunjay Dasgupta for issuing the false test report of ICMP / LAWS;
- that on being asked about the WhatsApp chat of Shri Vir Bhadrarao Illa, Proprietor of M/s. Shree Sanari Shipping, Gandhidham which indicates that there is a transaction of money container-wise for issuing favourable test reports, to which he stated that he cannot say about it as it is the chat between the importers and he had no idea about it;
- The Laboratory officer has no idea about the number of containers in a Bill of Entry; So, it might be the chat between the importers on their own level and it had no concern with him;
- He was not aware about the collection of the amounts from the importers in his name and he was not concerned with it.

On being asked about when the analytical findings were being placed before him showing that: “It is other than light oil/SBPS/SKO/ATF/HSD/ LDO” in most of the cases, why to negate such characteristics of the goods, he had not considered it necessary to perform the testing of light oil as well as SBPS or SKO or ATF or HSD or LDO also and provided the report based on the method of testing provided for IS 1745-1978 only, was it solely with a view to favor the concerned importers and in his reply, he stated that,

- The findings of “It is other than light oil/SBPS/SKO/ATF/ HSD/LDO” is based on analytical findings and technical literature available in the office;
- As regards Light Oil and SBPS, they were usually following the parameters /conditions set out in the Chapter Note sub-heading note 4 of the Chapter 27 of the Customs Tariff;
- For SKO and ATF, they were usually following the testing parameters provided in the US EPA;
- As regards HSD and LDO, they were usually following the IS/ASTM parameters, so, in the cases with findings “It is other than light oil/SBPS/SKO/ ATF/ HSD/LDO”, the specific testing method as stated above must have been followed;
- Those test reports were also being verified by the Joint Director and after his confirmation; the reports were being released in the system by the Joint
Director; so it is not a case that he did a particular testing with a view to favor a particular importer.

1.19.15. **Statement of Shri Jitendrasinh Indrasinh Zala S/O Shri Indrasinh Zala, Proprietor of M/S. Shri Krishna Bulk Carriers was recorded under section 108 of the custom act, 1962 on 02.01.2019, wherein he inter-alia stated that :-**

- In the month of June 2018, Shri Dimple Shah of M/s. Yash Corporation, Address-18, Daxsheshvar Nagar, Avirbhav, Pandesara, Surat, Gujarat made him call for the making arrangement of transportation some liquid cargo;
- Before this consignment, he had already arranged transportation 2-3 times for the similar type of the cargo for Shri Dimple Shah;
- Shri Dimple Shah of M/s. Yash Corporation made him call and requested to arrange two Tanker Lorries to carry liquid cargo from CWC, Kandla to Surat;
- Accordingly he asked Shri Mahadeva Bhai, Owner of the Truck No. GJ-12Z-4571 and Shri Wajabhai, Owner of the vehicle No. GJ-12-AT-7781 (Tanker Lorries) on which they both agreed;
- He conveyed both Lorry Nos. to Shri Dimple Shah and after sometime Shri Dimple Shah made him call and informed that he has talked to CWC, CFS about both Lorries and instructed him to send the Lorries to CEWC, CFS;
- Around 27th to 28th of August 2018 both Lorries departed to CWC for the transportation of the liquid cargo;
- Both of the Lorries when stuffed partially, he was informed by CWC, CFS that the imported cargo, which was to be transported by the Lorry No. GJ-12-AT-7781 and GJ-12-Z-4571 were on hold by Customs/DRI Authorities for examination purpose.

1.19.16. **Statement of Shri Jitendrasinh Indrasinh Zala S/O Shri Indrasinh Zala, Age 48 Years, Proprietor of M/S. Shri Krishna Bulk Carriers was recorded under Section 108 of the custom act, 1962 on 08.01.2019, wherein he inter alia stated that:-**

- In their local business term ICMP/LAWS is called as “white mall”
- The importers also, who enquired about the liquid cargo transportation used to say “white mall” instead of ICMP/LAWS;
- Transportation charges/ freight charges they take for “white mall” and other liquid are similar;
- He never arranged transportation for Kerosene, as it is transported and imported by IOC;
- He had never asked for explosive certificate from truck owner as Importers never told him that “white mall” (ICMP/LAWS) is an explosive and importer also never
asked him to arrange the transportation (lorry/tanker) which are fit to carry the liquid explosive.

1.19.17. Summons dated 10.01.2019 was issued to M/s. Yes corporation at their address and forwarded by Registered Post but the same was returned with remarks ‘Not Known’ by postal authorities.

2. Based on the facts and evidences discussed above, three persons, namely (1) Shri Virbhadrarao Illa, Proprietor of M/s. Shree Sanari Shipping, Gandhidham, (2) Shri Iqbal Rahman Shaikh, Representative of M/s. Shree Sanari Shipping, Gandhidham and (3) Shri Mritunjay Dasgupta (Customs Broker), Proprietor of M/s. MAT Shipping, Gandhidham were arrested on 05.10.2018 and they were produced before the Addl. Chief Judicial Magistrate, Gandhidham on 05.10.2018, who took them in judicial custody. All the three accused persons filed a common bail application in the Court of Addl. Chief Judicial Magistrate, Gandhidham, but the same was rejected vide Order dated 11.10.2018. Subsequent to this, they all filed common bail application vide Criminal Misc. Application No. 433/2018 before 2nd Additional Sessions Judge Court, Gandhidham but the said application was also rejected vide Order 25.10.2018 passed by the Sessions Court, Gandhidham. All three accused persons had, therefore, filed Criminal Misc. Applications No. 20896/2018, 20889/2018 and 20897/2018 separately in Hon’ble High Court of Gujarat. Pending their application before Hon’ble Gujarat High Court, they filed application for default bail before the Addl. Chief Judicial Magistrate, Gandhidham, who allowed the said application and all of them were allowed to be enlarged on default bail vide Order dttd. 05.12.2018. In this context, since they were already enlarged on bail, their applications became infructuous, hence vide Order dttd.06.12.2018, Hon’ble High Court of Gujarat ordered that their applications stood disposed of as having become infructuous.

2.1. Further, Shri Nawal Kishore Pitti, Proprietor of M/s. Janpriya filed an Anticipatory Bail Application vide Cri. Misc. Application No. 436/2018 u/s 438 of Cr.P.C before the Court of 2nd Additional Sessions Judge, Gandhidham, but the said application was rejected by Court vide Order dttd. 20.11.2018.

Hence, Shri Nawal Kishore Pitti filed further a Criminal Misc Application for Anticipatory Bail in Hon’ble High Court of Gujarat vide No. 23407/2018, converted from Criminal Misc Application No. 38487/2018 and got interim relief from the Hon’ble Court vide Order dated 24.12.2018 and 27.12.2018 that he may not be arrested till the returnable date and later on, vide Order dttd.25.01.2019 the said interim relief was extended till 12.02.2019 by the Hon’ble High Court of Gujarat. The matter is posted for hearing before High Court of Gujarat on 28.02.2019.

2.2. Similarly, Shri Rajendra Prasad Meena (Shri R.P. Meena), Chemical Examiner Gr-I, Customs House Kandla Laboratory, Kandla (Presently posted at CRCL, New Delhi) also filed Anticipatory Bail Application vide Cri. Misc. Application 437/2018 u/s 438 of Cr.P.C in the 2nd Additional Sessions Court, Gandhidham, but the said application was rejected by Court vide Order dttd. 20.11.2018.
Hence, Shri R. P. Meena filed Criminal Misc Application for Anticipatory Bail in Hon'ble High Court of Gujarat vide No. 23059/2018, converted from Criminal Misc Application No. 38333/2018 and got interim relief from the Hon'ble Court vide Order dtd. 24.12.2018 that he may not be arrested till the returnable date and later on vide Order dtd. 25.01.2019 the said interim relief was extended till 12.02.2019 by the Hon’ble High Court of Gujarat; which further vide Order dtd. 12.02.2019 was extended till 28.02.2019 by the Hon’ble High Court of Gujarat.

3. Further, on the representations made by the importers for permitting storage of the seized subject goods in bonded warehouse under Section 49 of the Customs Act, 1962, DR conveyed to Customs Authorities to permit the importers, if deemed fit at their end vide letter dated 26.10.2018 under intimation to the respective importers, but till issue of SCN, no action appears to have been taken by any of the importers for the same.

4. As discussed above, Para 2.01 of the Foreign Trade Policy 2015-2020, which was notified under Section 5 of the Foreign Trade (Development and Regulation) Act, 1992, prescribed as follow:

"(a) Exports and imports shall be ‘Free’ except when regulated by way of ‘prohibition’, ‘restriction’ or ‘exclusive trading through State Trading Enterprises (STEs)’ as laid down in Indian Trade Classification (Harmonized System) [ITC (HS)] of Exports and Imports. The list of ‘Prohibited’, ‘Restricted’, and STE items can be viewed by clicking on ‘Downloads’ at http://dgft.gov.in

(b) Further, there are some items which are ‘free’ for import/export, but subject to conditions stipulated in other Acts or in law for the time being in force.”

5. As per the Schedule I of the Indian Trade Classification (HS) Classifications on Import Items 2015-2020, Section V, Chapter 27, Import Policy for the Superior Kerosene Oil (SKO), as covered under Customs Tariff Heading and Tariff Item No. 27101910 is “State Trading Enterprises” with remarks that “Import subject to Para 2.11 of the Foreign Trade Policy and condition at Policy condition (2) below.”

5.1. Para 2.20 of the Foreign Trade Policy 2015-2020, which was notified under Section 5 of the Foreign Trade (Development and Regulation) Act, 1992 specified as follow:

(a) State Trading Enterprises (STEs) are governmental and nongovernmental enterprises, including marketing boards, which deal with goods for export and /or import. Any good, import or export of which is governed through exclusive or special privilege granted to State Trading Enterprise (STE), may be imported or exported by the concerned STE as per conditions specified in ITC (HS). The list of STEs notified by DGFT is in Appendix-2J.

(b) Such STE(s) shall make any such purchases or sales involving imports or exports solely in accordance with commercial considerations, including price, quality, availability, marketability, transportation and other conditions of purchase or sale in a non-discriminatory manner and shall afford enterprises of other
countries adequate opportunity, in accordance with customary business practices, to compete for participation in such purchases or sales.

(c) DGFT may, however, grant an authorisation to any other person to import or export any of the goods notified for exclusive trading through STEs.

5.2. Further to the above, the Policy condition (2) prescribed at Schedule I of the ITC (HS) Classifications on Import Items 2015-2020, Section V, Chapter 27 specified as follow:

“(2) Import of SKO shall be allowed through State Trading Enterprises (STEs) i.e. IOC, BPCL, HPCL, and IBP for all purposes with STC being nominated as State Trading Enterprises (STE) for supplies to Advance Licence Holders. Advance Licence Holders shall however, have the option to import SKO from the above mentioned STEs including STC.”

5.3. The list of the State Trading Enterprises (STEs) for FTP purpose, as provided vide Appendix 2J of the Foreign Trade Policy 2015-2020 is as follow:

“S. NO. STATE-TRADING ENTERPRISESES
1. Food Corporation of India (FCI)
2. State Trading Corporation (STC)
3. Indian Oil Corporation (IOC)
4. Bharat Petroleum Corporation Ltd. (BPCL)
5. Hindustan Petroleum Corporation Ltd. (HPCL)
6. Oil and Natural Gas Corporation Ltd. (ONGC)
7. Minerals and Metals Trading Corporation (MMTC)
8. Indian Potash Ltd. (IPL)
10. National Cooperative Dairy Federation (NDCF)
11. National Agriculture Cooperative Marketing Federation of India Ltd (NAFED)
12. Projects and Equipment Cooperation of India Ltd (PEC)
13. Spices Trading Corporation Limited (STCL)
14. Central Warehousing Corporation (CWC)”

5.4. Further to the above, since the SKO in the total quantity in possession exceeding the specified quantity falls in the category of “Petroleum Class B” and the import, storage and handling of the products falling under “Petroleum Class B” are governed by the provisions of the Petroleum Act, 1934 (30 of 1934). Import of SKO; further to this, if to be considered as classifiable as “Petroleum Class B”, then the Licence issued under the Petroleum Rules, 1976 is mandatory for import of goods falling under “Petroleum Class B” and only such Petroleum is allowed to be imported which are already in possession of Licence issued under the Petroleum Rules, 1976. Further for the storage of such “Petroleum Class B” products, statutory provisions have been made, which requires different manner of compliance, if such goods to be stored in Drums and to be stored in tanks. As per Notification No. 105-Cus dtd. 06.08.1938, any import
made in contravention of the provisions of the Petroleum Act, 1934 (30 of 1934) may have to be treated in deemed violation of the provisions of Section 11 of the Customs Act, 1962.

5.5. From the above facts, it is apparent that the M/s. Janpriya had given a job of importing the goods on their behalf to Shri Iqbal Rahman Shaikh and Shri Virbhadra Rao of M/s. Shree Sanari Shipping, Gandhidham for arranging clearance of the goods. In this respect, for the goods imported as such, on behalf of M/s. Janpriya, M/s. Shree Sanari Shipping handed over the documents to Shri Mritunjay Dasgupta, Prop. of Customs Broker concern M/s. MAT Shipping for filing of Bill of Entry and to arrange clearance of the goods in any manner. On receipt of the documents, pertaining to the goods imported vide SUN/EXP/7720/2018 dtc. 06.08.2018 of M/s. Sunrise Petrochem FZC, Sharjah, a Bill of Entry No. 7730154, dttd. 21.08.2018 was filed by M/s. MAT Shipping, Customs Broker on behalf of M/s. Janpriya and sought clearance of the goods described as 351.82 MTs Industrial Composite Mixture Plus. It would be pertinent to mention here that the payment for the said consignment was not made by M/s. Janpriya to the supplier. On importation, the consignment contained in 20 containers (of 20 feet) containers was brought at CWC CF5, Kandla, where the Customs officer of Kandla Custom House draw sample of the goods on 24.08.2018 and forwarded the same to the Customs Laboratory, Kandla for testing vide Test Memo No. 1033659/24.08.2018. The specific query made in respect of the same are to ascertain: “Nature, Composition, Description of Goods, Initial Boiling Point, Final Boiling Point, % of Vol (incl. losses) Distillation at 210c, Flash Point, Whether goods are ICMP or Light Oil/SBPS/HSD/SKO/ATF/LDO or otherwise.”. As appears, the on receipt of the sample in the Customs Laboratory at Kandla, the same were declared as tested vide Lab. No. 2325/24.08.2018 by the Shri P.M. Verma, ACE, and as appears, it was found that the FBP of the goods to be 260 C. Hence, as appears from the WhatsApp chat took place between Shri Mritunjay Dasgupta with Shri Virbhadra Rao on 21.08.2018, Shri R. P. Meena informed Shri Mritunjay Dasgupta about the FBP of 260 C and to provide manipulated report, he asked for Rs.1,00,000/-, which was agreed by Shri Mritunjay Dasgupta after getting confirmation from the importer through Shri Virbhadra Rao. Accordingly, the FBP was declared as 239 degree C and accordingly the conclusion was drawn as “It is other than Light Oil/SBPS/ATF/SKO/HSD/LDO. The Distillation range obtained for the sample is not in agreement as per IS: 1745-1978 for Low Aromatic Solvents” after showing the FBP 239 c. As appears, the test result as such was uploaded in the system, which reads as follow:

“The sample is in the form of clear colourless liquid. It is composed of mixture of mineral hydrocarbons having following constants: Initial boiling point = 150 degree Celsius, Final boiling point = 239 degree Celsius, Density at 15 degree Celsius = 0.7892 gm/ml, Distill at 210 degree Celsius = 75%, Flash Point = 46 degree Celsius. It is other than light oil/SBPS/SKO/ATF/LDO/HSD”.

Considering the aforesaid report, the Customs officer permitted out of charge to the consignment covered vide B/E No. 7730154 dttd. 21.08.2018, being unaware of the manipulated test result.
It would be pertinent to mention here that as per the clarification issued by Bureau of Indian Standards for BIS No: 1745: 2018 it has been clarified that:

1. **BIS through its technical Committees has published two separate Indian standards for, kerosene and Petroleum Hydrocarbon Solvents, namely IS 1459 : 2018 Kerosene - Specification (Third Revision) and IS 1745: 2018 Petroleum Hydrocarbon Solvents - Specification (Third Revision).**

2. **IS 1459 prescribes requirements and methods of sampling and test of Kerosene intended for use as an illuminant and as a fuel and IS 1745 prescribes the requirements and the methods of test for Petroleum Hydrocarbon Solvents generally used in solvent extraction of oils, rubber and paint industries, in the formulation of insecticides, for dry cleaning and for textile printing purposes.**

3. **The requirements specifically prescribed in IS 1459 for Kerosene only are a) Acidity, in organic; b) Burning quality; and c) Smoke point and that in IS 1745 Petroleum Hydrocarbon Solvents are a) Initial boiling point; b) Aromatic content; and c) Residue on evaporation.**

5.6. Looking to the above, the parameters of a) Acidity, in organic; b) Burning quality; and c) Smoke point were not at all tested/reported under the test report provided by the Customs Laboratory, Kandla, while categorically stating that it is not SKO. Without testing these parameters, Shri R. P. Meena, Chemical Examiner could not have made conclusion that it is not SKO (Kerosene). Shri R. P. Meena can not take say that he made test limited to Low Aromatic Solvent in terms of IS: 1745-1978 only, as the test memo had specifically asked as to whether goods are ICMP or Light Oil/SBPS/HSD/SKO/ATF/LDO or otherwise. Thus, apparently the report, which was issued by Customs Laboratory, Kandla was with sole aim to suppress the correct characteristic of the sample tested.

6. M/s. Janpriya had sold the said consignment to M/s. Yes Corporation, Surat and said M/s. Yes Corporation, Surat had with an intention to obtain delivery of the goods and dispatching the same to their destination, assigned the transportation job for the said consignment to M/s. Shri Krishna Bulk Carriers, Gandhidham, who approached at CWC CFS, Gandhidham and the goods were started to be loaded on the tankers No. GJ-122-4571 and GJ-12-AT-7781 on 27th & 28th August, 2018.

7. Based on the intelligence, on 29.08.2018, the officer of DRI visited the offices of the Customs Broker M/s. MAT Shipping and the handling agent M/s. Shree Sanari Shipping at Gandhidham and also recorded the statement of Shri Mritunjay Dasgupta, Shri Virbhadra Rao Illa and Shri Iqbal Rahman Shaikh, in which it was admitted by them that the test report for the consignment was manipulated to show Final Boiling Point from 260 C to 239 C, with a view to avoid Policy restrictions.

8. The consignment covered vide B/L No. 7730154 dtd. 21.08.2018 was put on hold. Subsequently, on 31.08.2018 in the presence of the representative of the Customs Broker M/s.
MAT Shipping and the handling agent M/s. Shri Sanari Shipping, samples were drawn from the consignment under Panchnama. The said sample was forwarded to the CRCL, New Delhi vide letter dtd.15.09.2018 for testing under Test Memo signed on 14.09.2018. Test result on the same were received from CRCL, New Delhi vide Test report No. C.No. 35/Cus/2018-2019/CL-127 DRI dtd. 18/09/2018 describing as follows:

“The sample is in the form of clear colorless liquid. It is composed mineral hydrocarbon oil (more than 70% by weight) having following constants:

On the basis of above parameters, the sample under reference conforms to the specification of Kerosene (SKO) as per IS 1459:2016 (Third Revision). It does not meet the requirements for Petroleum Hydrocarbon Solvents as per IS: 1745 – 1978."

8.2 Taking into consideration, the test reports issued by CRCL, New Delhi, it is clear that the goods, which has been imported by M/s. Janpriya is not "Industrial Composite Mixture Plus" falling under CTH No. 27101990, as has been described in the B/E, but it is Superior Kerosene
Oil (SKO), with its correct classification under CTH No. 27101910, and the item falling under said CTH No. 27101910 can be imported by STEs only and it has to be termed as prohibited goods, by virtue of the provisions of Para 2.01 and 2.20 of the Foreign Trade Policy 2015-2020 read with relevant Policy conditions provided in Tariff Item No. 27101910 in the ITC (HS) Classification of Imported goods 2015-2010, if the relevant conditions for its legal import were not complied with by the concerned importer. In the instant case, it is apparent that the goods were not imported by or through STEs, but it has been negotiated directly by M/s. Janpriya with the foreign supplier through Shri Iqbal Rahman Shaikh of M/s. Shree Sanari Shipping, Gandhidham. It is also not a case of the importer that they were holding Advance Licence/Advance Authorisation or Special Licence issued by DGFT. In that case, the import of SKO by M/s. Janpriya has to be considered in violation of the provisions of Para 2.01 read with Para 2.20 of the Foreign Trade Policy 2015-2020 and consequently, the goods covered by B/E No. 7730154 dtd.21.08.2018 may be treated as "Prohibited goods" within the meaning of definition provided vide Section 2(33) of the Customs Act, 1962, which makes such goods liable for confiscation under Section 111(d) of the Customs Act, 1962.

8.3 Even in the context of the Notification No. 105-Cus dtd. 06.08.1938, the goods in respect of which the restricting provisions of the Petroleum Act, 1934 and the rules made thereunder are applicable and where the compliance with those provisions is required from the importer of such goods; if non-compliance is observed on the part of the importer, then the same may have to be treated as contravention of the deemed prohibition imposed on such goods in terms of Section 11 of the Customs Act, 1962. It is apparent from the facts aforementioned that since the SKO in the total quantity in possession exceeding the specified quantity falls in the category of "Petroleum Class B" and the import, storage and handling of the products falling under "Petroleum Class B" are governed by the provisions of the Petroleum Act, 1934 (30 of 1934). Import of SKO; further to this, if to be considered as classifiable as "Petroleum Class B", then the Licence issued under the Petroleum Rules, 1976 is mandatory for import of goods falling under "Petroleum Class B" and only such Petroleum is allowed to be imported which are already in possession of Licence issued under the Petroleum Rules, 1976. Further for the storage of such "Petroleum Class B" products, statutory provisions have been made, which requires different manner of compliance, if such goods to be stored in Drums and to be stored in tanks. As per Notification No. 105-Cus dtd. 06.08.1938, any import made in contravention of the provisions of the Petroleum Act, 1934 (30 of 1934) may have to be treated in deemed violation of the provisions of Section 11 of the Customs Act, 1962. Since the importer in the instant case has failed to follow such compliance, it is clear that they have also violated the provisions of Section 11 of the Customs Act, 1962, which makes such goods liable for confiscation under Section 111(d) and 111(p) of the Customs Act, 1962.

8.4 Looking to the facts, it is apparent that though having knowledge about the character of the goods under import, the importer M/s. Janpriya had in connivance with the Customs Broker by
Shri Mritunjay Dasgupta, Shri Virbhadra Rao Illa, Proprietor of Handling Agent concern M/s Shree Sanari Shipping and Shri Iqbal Rahman Shaikh, Representative of M/s. Shree Sanari Shipping and in collusion with Shri R. P. Meena, Chemical Examiner, had attempted to clear the "prohibited goods" by willfully mis-declaring its description and correct CTH No. to the extent of managing and manipulating its correct test results. In terms of Section 46 of the Customs Act, 1962, the importer of any goods is required to declare correct details in the Bill of Entry being filed by them, and also required to make and subscribe to a declaration to the truth of the contents of such Bill of Entry, whereas in the instant case, the importer had filed Bill of Entry with incorrect particulars with sole aim to suppress the correct nature of Cargo, which was otherwise to be considered as prohibited goods, if its correct character is revealed. Therefore, the goods imported by the importer as such, is also liable for confiscation under Section 111(m) of the Customs Act, 1962.

9. It would be pertinent to mention here that the importer had in the instant case categorically stated that they were in requirement of the goods with FBP between 240 c to 260 c. Thus, they were well aware that the characteristic of the goods is of SKO, although the B/E was being filed by them mis-declaring the goods ICMP and for that reason they agreed with pre-determined aim for clearing the goods anyhow and for manipulating the test results. Thus, the commission and omission on their part in committing the offence involving the smuggling of Prohibited goods has made them liable for penalty under Section 112 (a) & (b) (i) and 114AA of the Customs Act, 1962.

9.1. It would be pertinent to mention here that the importer had declared its address in the Bill of Entry as “77-B, RIICO Industrial Area, Nagaur (Rajasthan)-341001”, but it is observed that the importer had closed the said premises and said to have shifted its business premises from said place to “Janpriya Energy, Opposite Corporation Bank, Delhi Gate ‘A’ Road, Nagaur”. It is also observed that the premises at “Opposite Corporation Bank, Delhi Gate ‘A’ Road, Nagaur” is an open plot, surrounded by 20 feet wall, without any building or shade at the said premises to store the goods or to maintain records. The neighbor of the plot informed that Mr. Nawal Kishore Pitti is the owner of the plot and no activities related to any business are done on the said premises. The importer does not come forward with the documents/evidences being asked for submission and also not disclosing its proper address, where such documents can be made available for inspection/verification. In his statement dtd.09.01.2019, the importer submitted that he has now shifted his office at “Delhi Gate A Road, Near Vijaya Bank, Near Peer Jado Mohalla, Nagaur-341001” in that case, the conduct of the importer does not seem in conformity with the relevant legal obligation on them. It would be pertinent to mention here that in terms of Para 2.15 of the Handbook of Procedure notified by the DGFT in terms of Para 1.03 of the Foreign Trade Policy read with Section 5 of the Foreign Trade (Development and Regulation) Act, 1994, the IEC holder shall be responsible for updating the profile of the importer/exporter. By not providing the correct details and also by not updating the same, it is
clear that the importer has failed to follow the statutory compliance to be made by him. This failure on the part of the applicant is with malafide intention to avoid reach of the enforcement authorities and also to avoid providing the information and documents, which he is supposed to provide to the investigating agency asking specifically about the same in the course of Section 108 of the Customs Act, 1962. As on date however the profile of IEC No. stands updated and it shows the address as now "JAN PRIYA ENERGY DELHI GATE A ROAD PEERJODON KA MOHALA OPP CORP BANK NAGAUR, RAJASTHAN PIN-341001. This is done only upon being intimated by the DRI to the Hon’ble Court in respect of Anticipatory Bail application filed by Shri Naval Kishore Pitti. It would be pertinent to mention here that the importer were served with various summons on 05.10.2018, 15.10.2018, 25.10.2018, 15.11.2018, 22.11.2018 and 27.11.2018 but the importer had intentionally avoided to make appearance before the investigating officer and also avoided to provide the details, documents and information asked for from him in the course of investigation. Although he appeared before the investigating officer on 09.01.2019, only after getting interim relief from the Gujarat High Court vide Order dtd. 24.12.2018 & 27.12.2018, to restrict the officers of DRI from arresting him. Even though, he has not provided the details of sales of the goods by him and such other details, about which he himself agreed to provide when his statement was recorded. Thus, his intention of misleading the investigation and suppressing the facts from the investigation in violation of Section 108 of the Customs Act, 1962 has rendered themselves liable for separate penalty under Section 117 of the Customs Act, 1962.

9.2 Considering the aforesaid violations of the Policy Provisions in respect of the goods covered vide aforesaid Bill of Entry, the goods pertaining to the same were placed under seizure vide Seizure Memo dtd.03.10.2018, which was served on the importer. The goods so seized handed over for safe custody to the CWC CFS, Kandla under Supratnamda dtd.03.10.2018.

10. The import of SKO can be permitted through the STEs only and the exception provided are related to (1) The Advance Licence holders, through the STEs including STC, as per Policy condition -2 of the Chapter 27 of the ITC (HS) Schedule-1, and (2) The Authorisation holder, who were granted such authorisation by the DGFT in terms of Para 2.20 (c) of the Foreign Trade Policy. In the instant case, in the absence of compliance by the importer with any of the aforesaid statutory obligations, redemption of the goods cannot be allowed to the importers on payment of fine and penalties after re-classifying the goods and modifying the CTH No. thereof.

Even in the context of the provisions of the Petroleum Act, 1934 (30 of 1934) is since making the goods liable to confiscation, redemption of the goods to the importer can not be permitted in the absence of continuation of such non-compliance on the part of the importer.

10.1. It would be pertinent to mention here that the export of SKO falling under CTH No. 27101910 is although made “free” at of Sr. No. 114 of the Schedule 2 of the ITC (HS) Classification pertaining to Export Policy; the condition has been stipulated therein about obtaining NOC from the Ministry of Petroleum and Natural Gas. Hence, any request to permit
re-export of the goods is supposed to be made with required NOC from the Ministry of Petroleum and Natural Gas, which may not be available to the importer in the instant case, as they have from the very first instance not followed the provisions of the Petroleum Act, 1934.

10.2. In the instant case, at the behest of the importers, the Customs Broker had illegally negotiated with the Chemical Examiner of the Customs Laboratory, Kandla to bring positive test results of the imported goods with sole intention to avoid the clause of prohibition getting extended to the goods imported by them with the test result as SKO and also paid illegal gratification to obtain favourable test results, as against the actual test results. The Chemical Examiner, who was supposed to provide the correct test result, had allowed himself to enter into a well-designed conspiracy to clear the Prohibited goods and accordingly provided the manipulated results, based on which the out of charge was wrongly obtained by the importer from the Customs officer in fraudulent manner. It is evident that the Chemical Examiner had not at all considered it necessary to conduct test for SKO in terms of IS 1459 : 2016 (Third Revision) and limiting the test in respect of solvent in terms of IS 1745 : 1978, though he made categorical observation that the goods were other than SKO, with sole aim to abet the importer in availing clearance of the goods, which were prohibited for import and join the well-designed conspiracy involving Shri Miritunjay Dasgupta, Shri Virbhadra Rao Illa, Shri Iqbal Rahman Shaikh and Shri Nawal Kishor Patti.

CONFISCATION OF SUBJECT GOODS

11. From the above facts, it is clear that the importer had imported the Superior Kerosene Oil (SKO) falling under CTH No. 27101910 in the guise of “Industrial Composite Mixture Plus” falling under CTH No. 27101990 from Kandla Port. The policy conditions stipulate that “import of SKO (Kerosene) is subject to Para 2.20 of Foreign Trade Policy and shall be allowed through State Trading Enterprises (STEs) i.e. IOC, BPCL, HPCL and IBP for all purposes with STC being nominated as a State Trading Enterprise (STE) for supplies to Advance Licence holders. Advance Licence holders shall however, have the option to import SKO from the above mentioned STEs including STC”. Further, the SKO stands classified as “Petroleum Class B” Thus, Goods became liable for confiscation under Section 111 (d), (m) and (p) of the Customs Act, 1962.

 Accordingly, the subject goods mentioned at Table-3 below, imported by M/s. Janpriya, Nagaur, Rajasthan have been placed under seizure under reasonable belief vide Seizure Memo dated 03.10.2018 [RUD No.26] and the same goods have been handed over to M/s. Central Warehousing Corporation, CFS, Kandla for safe custody under Supratnamda dated 03.10.2018 (RUD No.27).

11.1. The subject goods imported in India, without providing correct information in the bill of entry, without properly classifying and contraventions of various provisions of the Customs Act, 1962 which render subject goods liable to confiscation as discussed below:-

(i) The subject goods were imported and cleared, which are restricted in nature, in the guise of the import of ICMP / LAWS, thus rendering the goods liable to confiscation under Section 111(d) of the Customs Act, 1962.

(ii) The correct information were not included in the bill of entry no. 7730154 dtd. 21.08.2018, thus rendering the goods liable to confiscation under Section 111(m) of the Customs Act, 1962.

(iii) The subject goods were imported in violation of the Provisions of Petroleum 1934 and consequently violating the Notification no. 30 of 1934, which is deemed application under Section 11 of the Customs Act, 1962 thus rendering the goods liable to confiscation under Section 111(p) of the Customs Act, 1962.

ROLES OF PERSONS INVOLVED

12.1. M/s. Janpriya, Nagaur, Rajasthan & Shri Nawal Kishore Pitti, Proprietor of M/s. Janpriya, Rajasthan:

Shri Nawal Kishore Pitti, Proprietor of M/s Janpriya who stated that M/s. Sanari Shipping provided them the rates of ICMP and their only requirement is final boiling point between 240 to 260 and place their orders accordingly through Shri Iqbal Rahman Shaikh of M/s. Shree Sanari Shipping, Gandhidham. He agreed with the fact that the cargo, imported by him, meets the requirement of parameters of Superior Kerosene Oil (SKO) and the Superior Kerosene Oil (SKO) is restricted item and can only be imported through State Trading Enterprises (STE) as per CTH and FTP. He has being importing this type of cargo for the last 5-6 months and he imported 351.82 MTS SKO vide B/E No. 7730154 dated 21.08.2018 having declared value of Rs. 1,66,95,237/- (market value Rs. 2.53 Crore approx. as per website of IOCL-non subsidized price in metro in Oct., 2018). Shri Virbhadra Rao of M/s. Shree Sanari Shipping facilitated this importer by way of manipulating test reports with the help of Shri Mrutunjay Dasgupta, Proprietor of CHA firm M/s. MAT Shipping through Chemical Examiner at Kandla Laboratory in order to clear the consignment having restricted nature. The deal between Shri Virbhadra Rao Illa and Shri Mrutunjay Dasgupta for getting the favourable test reports by way of paying illegal gratification to the Chemical Examiner is also confirmed from the WhatsApp chat held between the duo and confirmed by Shri Virbhadra Rao Illa in his statements dated 03.10.2018 and 04.10.2018. He has not specifically admitted his offence in his statement; however, as per the evidences and statement of Shri Virbhadra Rao Illa of M/s. Shree Sanari Shipping and Shri Mrutunjay Dasgupta of CB firm M/s. MAT Shipping, it is clear that he was actively involved in the fraud to get monetary benefits. These deliberate acts of commission and omission on the part of M/s. Janpriya, Nagaur, Rajasthan & Shri Nawal Kishore Pitti, Proprietor of M/s. Janpriya, Nagaur, Rajasthan have rendered the said quantity mentioned above at Table-3 in Para 14.1 liable to confiscation under provisions of Section 111 (d), 111 (m) and 111 (p) of the Customs
Act, 1962 and had also made Shri Nawal Kishore Pitti, Proprietor of M/s. Japriya, Nagaur, Rajasthan liable to penalty as per provisions of Section 112 (a) and (b) and Section 114AA of the Customs Act, 1962. Shri Nawal Kishore Pitti has deliberately avoided to appear in response to the summons issued to him under Section 108 of the Customs Act, 1962, not provided the details and documents being asked for from him and also not provided his correct business location while recording of his statement, which being in violation of Section 108 of the Customs Act, 1962, he is liable for penalty under Section 117 of the Customs Act, 1962 for the same.

12.2. Shri Virbhadr Rao Illa, Proprietor of M/s. Shree Sanari Shipping, Gandhidham:

Shri Virbhadr Rao Illa confirmed the facts stated by him in his statement dated 29.08.2018, 03.10.2018 & 04.10.2018 that Shri R. P. Meena, Chemical Examiner of CRCL Kandla was contacted by the CHA on behalf of importers and requested him to take care of final boiling point below 240 degree Celsius. He (Shri Virbhadr Rao Illa) also confirmed that the CE informed him that Shri R. P. Meena, Chemical Examiner, CRCL Kandla has demanded Rs 40,000/- to Rs. 1,00,000/- per sample to keep the Final Boiling Point below 240 degree Celsius. He admitted that he used to collect money from the importers and give it to Shri Mritunjay Dasgupta of CB firm M/s. MAT Shipping, for handing over the same to Shri R. P. Meena, Chemical Examiner CRCL, Kandla as per the deal; that from October, 2017 to till issue of SCN, he have given cash around Rs. 7 lakh to Rs. 8 lakh to Shri Mritunjay Dasgupta for further handing over to Shri R. P. Meena, Chemical Examiner, CRCL, Kandla.

Shri Virbhadr Rao was very much aware that the cargo imported in the name of ICMP is actually of ‘Restricted’ category but he involved himself in paying illegal gratification to officers of Custom House Laboratory, Kandla. Shri Virbhadr Rao has also facilitated other importers by way of manipulating test reports through Chemical Examiner at Kandla Laboratory in order to clear the consignment having restricted nature. Shri Virbhadr Rao Illa stated the names of importers which included M/s. Janpriya on behalf of whom he got the test results manipulated by the Chemical Examiner through Shri Mritunjay Dasgupta, Proprietor of CB firm M/s. MAT Shipping. The deal between Shri Virbhadr Rao Illa and Shri Mritunjay Dasgupta for getting the favourable test reports by way of paying illegal gratification to the Chemical Examiner is also confirmed from the WhatsApp chat held between the duo and confirmed by Shri Virbhadr Rao Illa in his statements dated 03.10.2018 and 04.10.2018. By these deliberate acts and omissions, he also abetted the practice of illegal imports of restricted goods into India, actively engaged and facilitated practices which were in contravention of the provisions of Customs Act, 1962 as well as other Statutes. By these acts, Shri Virbhadr Rao Illa has rendered himself liable to penalty under provisions of Section 112 (a) and (b) and Section 114AA of Customs Act, 1962.

12.3. Shri Iqbal Rahman Shaikh, Representative of M/s. Shree Sanari Shipping, Gandhidham:

Shri Iqbal Rahman Shaikh, Representative of M/s. Shree Sanari Shipping has been instrumental in placing order with the supplier on behalf of M/s. Janpriya for the goods having final boiling point more than 240 degree centigrade, though he was aware that such goods were restricted
for SKO in the guise of ICMP in view of the collusion and conspiracy they have made with Shri R. P. Meena, Chemical Examiner Customs House Laboratory, Kandla and Shri Mritunjay Dasgupta. He was fully aware about the fact regarding manipulation of test results by way of paying illegal gratification to the Chemical Examiner of CRCL, Kandla. By these deliberate acts and omissions, he also abetted the practice of illegal imports of restricted goods into India, facilitated practices which were in contravention of the provisions of Customs Act, 1962 and other statutes. By these acts, Shri Iqbal Rahman Shaikh has rendered himself liable to penalty under provisions of Section 112 (a) and (b) and Section 114AA of Customs Act, 1962.

12.4. Shri Mritunjay Dasgupta (Customs Broker), Proprietor of M/s. MAT Shipping:

Shri Mritunjay Dasgupta, Proprietor of M/s MAT Shipping who handles clearance activities of the entity in the capacity as the Custom Broker is responsible for having indulged in the conspiracy of illegal clearance of SKO, he had hatched with Shri Naval Kishore Pitti, Shri Virbhadr Rao, Shri Iqbal Rahman Sheikh and Shri R. P. Meena with sole aim to smuggle into India the goods, which can be imported by or through STE or against specific compliance, without following any such preconditions for import thereof. Shri Mritunjay Dasgupta was very much aware that the cargo imported by M/s. Janpriya in the name of ICMP is of the category, which can be imported though or by STEs or against special license issued by DGFT as well as complying with the provisions of the Petroleum Act, 1934, which he intended to bypass. Thus he involved himself in extending illegal gratification to Shri R. P. Meena, Chemical Examiner in the Custom House Laboratory, Kandla. It is evident from the statements and from the WhatsApp chat held between Shri Mritunjay Dasgupta and Shri Virbhadr Rao Illa about making payment towards illegal gratification to Shri R. P. Meena, Chemical Examiner. The commission and omission in the part of Shri Mritunjay Dasgupta who is a Licensed Customs Broker in violation of the obligations casted on such Licensed Customs Brokers in terms of Regulation 10 of the Customs Broker License Regulations, 2018. By these deliberate acts and omissions, he also abetted the practice of illegal imports of restricted goods into India, facilitated practices which were in contravention of the provisions of Customs Act, 1962, the Customs Brokers Licensing Regulations, 2018 and other statutes. By these acts, Shri Mritunjay Dasgupta has rendered himself liable to penalty under provisions of Section 112 (a) and (b) and Section 114AA of Customs Act, 1962.

12.5. Shri R.P. Meena, Chemical Examiner Gr-I, Customs House Kandla Laboratory, Kandla, Kutch, Gujarat (Presently posted in CRCL, New Delhi):

Shri R. P. Meena, Chemical Examiner-I in Custom House Laboratory, Kandla, being expert in the field of Chemical testing, is responsible to provide the Test Results with appropriate Test methods, but he had hatched a conspiracy with Shri Naval Kishore Pitti, Shri Virbhadr Rao, Shri Iqbal Rahman Sheikh and Shri Mritunjay Dasgupta with sole aim to smuggle into India the goods, which can be imported by or through STE or against specific compliance, without following any such preconditions for import thereof. Shri R.P. Meena, Chemical Examiner-I in Custom House Laboratory, Kandla is one of the key person in this scam who...
manipulated the test results for favoring M/s. Janpriya by way of illegal gratification of Rs.1,00,000/-. It would also be pertinent to mention here that various summons were issued to him for joining the investigation but he did not appear before the investigating officer and took the concocted ground of medical reasons for non-appearance. Later on, he appeared before the investigating officer on 24.12.2018, 27.12.2018 & 28.01.2019 only after getting interim relief from the Hon’ble High Court of Gujarat. He was fully aware if the final boiling point of the goods is more than 240 degree Celsius, then the same will get classified as other than the declared goods and its CTH will also change and the item will fall under the restricted category so, he deliberately manipulated the test results to show that the final boiling point of sample was below 240 degree, as per the deal, which was fixed between Shri Miritunjay Dasgupta of M/s. MAT Shipping and him in an overall conspiracy between five persons. Both Shri Miritunjay Dasgupta (Customs Broker), M/s. MAT Shipping and Shri Virbhadra Rao (Importer), M/s. Shree Sanari Shipping clearly admitted in their statements the name of the Shri R.P. Meena that they were paying Rs. 40,000/- to Rs. 1,00,000/-, depending on the number of containers per Bill of Entry to him. It is evident from the statement dated 03.10.2018 of Shri Virbhadra Rao that he (Shri Virbhadra Rao) was used to collect money from the abovesaid importers and give it to Shri Miritunjay Dasgupta of M/s. MAT Shipping for giving the same to Shri R.P. Meena, Chemical Examiner, Customs House Lab Kandla, as per deal. It would be pertinent to mention here that being expert in the field of chemical testing and aware about the technical complexity, he kept the testing method for ICMP limited to the extent of IS 1745:1978 and not at all followed the practice of IS 1459:1974. It is not a fact that he was not aware about such practice of testing to be followed with reference to IS 1459:1974 also, but he had avoided or ignored such practice to be followed in the case of the importer M/s. Janpriya, where he was to get illegal gratification. It would be important to note that without following the test method in terms of IS 1459:1974; he released the test report with categorical statement that the sample was not SKO, because he was well aware about the practice in Customs to allow clearance to the cargo on the basis of such opinion in the test report. Thus, being mis-guided by the manipulated reports from the chemical Examiner, the Customs officer granted out of charge to the consignment of SKO imported by M/s. Janpriya vide B/E NO. 7730154 dated 21.08.2018 with wrong description as ICMP.

Further, during the statement recorded on 04.10.2018, he (Virbhadra Rao) was shown a Made Up File containing printouts of WhatsApp chat (Page No. 1 to 11) for which he (Shri Virbhadra Rao Illa) stated that these WhatsApp chats had taken place between himself and Shri Miritunjay Dasgupta of CB firm M/s. MAT Shipping in relation to clearance of ICMP/LAWS through Customs, Kandla and dealing of money for getting favorable test results through Chemical Examiner of CRCL, Kandla; that he added that in this WhatsApp Chat, they were discussing about the quantum of money to be given to the Chemical Examiner CRCL, Kandla in lieu of favorable test report; that he explained that at the Word “NORMAL-RS. 40000/-” used in the chat means that Rs.40,000/- has to be given to the Chemical Examiner and the word
"SPECIAL-RS. 100000/-" or "SPECIAL-RS. 125000/-" means that Rs. 1,00,000/- or Rs. 1,25,000/- as the case may be, has to be given to the Chemical Examiner Customs Lab, Kandla for manipulating test result in favour of importers.

In the statement dated 04.10.2018 of Shri Mritunjay Dasgupta recorded under Section 108 of the Customs Act, 1962, he stated that he used to meet Shri R.P. Meena, Chemical Examiner, Kandla to get favourable test report. So, it is also very clear that the test report, issued from the Chemical Examiner, played a vital role for allowing out of charge to the SKO. He has knowingly indulged in the nefarious activities of smuggling in utmost defiance of law. For his acts of omission and commission, Shri R.P. Meena has rendered himself liable to penalty under Section 112 (a) & (b) and Section 114AA of the Customs Act, 1962.

12.6. M/s. Sunrise Petroleum FZC, Sharjah (UAE), being supplier of the goods facilitated the importer in importing the SKO in violation of the Policy provisions and also in contravention of the provisions of the Petroleum Act, 1934, by way of providing them the documents showing the goods as ICMP, though they had all reason to believe that the goods were SKO, as the final boiling point of such goods expected to be more than 240 degree. They did all these, upon being influenced by Shri Iqbal Rahman Shaikh of M/s. Shree Sanari Shipping, who became a link between the importer M/s. Janpriya and themselves. The supplier provided the goods to M/s. Janpriya against credit, only upon being introduced by Shri Iqbal Rahman Shaikh and there was otherwise no direct contact of the importer with the supplier. By way of providing falsified documents, M/s. Sunrise Petroleum FZC has abetted the offence, which has been committed for contravention of the provisions of the Customs Act, 1962 as well as other statutes. For his acts of omission and commission, M/s. Sunrise Petroleum FZC has rendered themselves liable to penalty under Section 112 (a) & (b) and Section 114AA of the Customs Act, 1962.

12.7. M/s. Yes Corporation, Surat, being receiver of the SKO imported by M/s. Janpriya vide B/E No. 7730154 dated 21.08.2018, in violation of the Policy provisions and also in contravention of the provisions of the Petroleum Act, 1934, has not come forward to join the investigation and avoided their appearance even after issue of summons to them. They have not provided the required documents, which were specifically asked for from them in the course of inquiry under the provisions of Section 108 of the Customs Act, 1962. It is apparent that they had already nominated the tankers to take delivery of the illegally imported SKO and had the goods not kept on hold, they would have disposed of the same in illegal manner and that too without following the provisions of the Petroleum Act, 1934 and rules made there under. By such act and omission, on their part has rendered themselves liable to penalties under Section 112 (a) & (b), Section 114AA and Section 117 of the Customs Act, 1962.

against the importer/beneficial owners or any other person whether named hereinabove or not, under the provisions of the Customs Act, 1962 or under any other law for the time being in force. Since the matter is under further investigation, the department reserves its right to investigate and issue notices in respect of other aspects as well as other clearances, if any, as also to issue corrigendum/ addendum to the instant notice. The show cause notice for demand of duty and for past period will be issued separately.

14. Accordingly, based on the above findings a SCN No. DRI/AZU/GRU-3/SKO-Janpriya/(In:- 12/2018)/2019 dated 26.02.2019 answerable to the Additional Commissioner of Customs, Custom House Kandla was issued by the Joint Director, Zonal Unit, Ahmedabad to the following under Section 124 of the Customs Act, 1962 only for seizure portion in respect of goods imported by M/s. Jan Priya Energy, Nagaur, Rajasthan vide Bill of Entry No. 7730154 dtd. 21.08.2018:-

(a) M/s. Jan Priya Energy (IEC No. 1311005722), Delhi Gate A Road, Near Vijaya Bank, Peer Jado Mohalla, Nagaur, Rajasthan - 341001 as well as M/s. Sunrise Petroleum FZC, Sharjah (UAE) and M/s. Yes Corporation, Surat, as to why:-

(i) The clearance granted to 351.82 MTs goods imported vide B/E No. 7730154 dated 21.08.2018 declaring the same as ICMP falling under CTH No. 27101990 based on false test report on 28.08.2018 under Section 47 of the Customs, Act 1962 should not be cancelled;
(ii) The assessment of the B/E No. 7730154 dated 21.08.2018 made with the description of the goods as ICMP and CTH No. 27101990 made under Section 17 of the Customs Act, 1962 should not be re-assessed;
(iii) The B/E No. 7730154 dated 21.08.2018 should not be assessed with correct description as SKO falling under CTH No. 27101910 instead of declared description as ICMP and CTH No. 27101990.
(iv) the 351.82 MTs SKO, falling under CTH No. 27101910, with declared value of Rs.1,66,95,237/-, having market value of Rs.2.53 Crore approx. should not be confiscated under provisions of Section 111(d), 111(m) and 111(p) of the Customs Act, 1962;
(v) Penalty should not be imposed on each of them individually and separately under Section 112(a) & (b)(i), 114AA and 117 of the Customs Act, 1962.

(b) Shri Virbhadra Rao Illa, Proprietor of M/s. Shree Sanari Shipping, Gandhidham, Shri Iqbal Rahman Shaikh, Representative of M/s. Shree Sanari Shipping, Gandhidham, Shri Mritunjay Dasgupta (Customs Broker), Proprietor of M/s. MAT Shipping, Gandhidham and Shri R.P. Meena, Chemical Examiner Gr-I, Custom House Laboratory Kandla (presently posted at CRCL, New Delhi) as to why penalty should not be imposed,
for the reasons discussed above, on each of them individually and personally under Section 112(a) & (b)(i) and 114AA of the Customs Act, 1962.

DEFENCE REPLY AND PERSONAL HEARING

15. Pursuant to the issuance of Show Cause Notices to the Noticees, they have filed their written submissions, the related excerpts of which are as follows:-

15.1. On behalf of M/s. Janpriya Energy, Shri Surender Singh, Advocate, vide his letter dated 30.04.2019 has given a representation for release of the seized goods imported by M/s. Janpriya Energy under Bill of Entry No. 7730154 dated 21.08.2018. Shri Surender Singh, Advocate, in his above said letter has, inter alia, submitted that they have imported the product “Low Aromatic White Spirit” / “Industrial Composite Mixture Plus” on many occasions but the product has never been questioned or nature of the product was never disputed. Hence, the SCN under reply is illegal and in violation of the principal of natural justice. They challenge the SCN on the following grounds:- (i) Patently incorrect approach for examination of the sample and failure to appreciate the vital facts qua the import – They have imported from the reputed companies who have also classified the goods under CTH 27101990. Products are tested by them before dispatch. Testing process (i.e. ASTM) by them may be different from the process adopted by CRCL, New Delhi. The process of ASTM is internationally accepted for identifying and testing of these products. Therefore, the disputed issue as to which report is to be relied upon and what has to be the better process of examination as ideally the testing methodology adopted by the exporting company should be testing methodology which should be used to test the product by CRCL, Delhi. Further, the market rate of LAWS / ICMP is much higher than SKO. Business of importing SKO is guise of LAWS / ICMP is not profitable. Hence, allegations are false and the statements which were relied upon were given under pressure and threat. (ii) The Show Cause Notice is in nature of determination of guilt and not an open notice to show cause – Their firm has been implicated merely for the reason that M/s. Shree Sanari Shipping and M/s. MAT Shipping, who were handling their import, were involved in certain illegal activities in connivance with certain officers of Customs. Further, on the basis of the test report which is generated by adopting wrong and incorrect testing procedure. The allegations imputed upon them are without providing the report on the basis of which an adverse inference is drawn and the said imputation should have been stated in the SCN. Proper opportunity to reply in the matter was not given. The department had already decided them to be guilty and no proceedings to grant them a fair opportunity of show cause was given to them. Hence, the proceedings as stated to be initiated are patently illegal. (iii) Notice lacks the basic requirements of Show Cause Notice such as relevant sections under which the notice is issued and no information about propose penalty is specified - Customs Section under which the notice has been issued to them the is not specified in the SCN. The proposed penalty is also not specified. Further, no opportunity has been provided to show cause in terms of Section 110(1) read with Section 124 of the Customs Act, 1962. (iv) Sample were sent for testing to a Lab
which is not equipped for testing of the sample – The samples of imported ICMP were sent to CRCL, Delhi who has given opinion that the said sample is Superior Kerosene Oil (SKO) and on the basis of the said report the imported goods were seized. Whereas, CRCL, Delhi is not capable to test the sample. (v) Subsequent samples were cleared by the department which were dispatched by the same manufacturer with the similar report despite the testing of the said consignment. (vi) Show Cause Notice is barred by law and is improper as there was no suppression in the Bill of Entry – Report (issued under the process of ASTM) of the imported goods is attached with the Bill of Entry, which clearly specify the properties of the imported goods. Report given by the supplier and report given by the CRCL, Delhi are mostly overlapping and since the Lab was not competent to identify the goods, the same gives a incorrect and erroneous finding. (vii) Show Cause Notice is barred by law - The proceedings should have been initiated within 6 months from the date of seizure i.e. when the goods were impounded. SCN was not issued within said period from the date of seizure as provided under Section 110(2) of the Customs Act, 1962. They have cited the following judgments in favour of their reply: (a) Auto Creaters Vs. Union of India - 2015(325)ELT 49 (b) Krampe Hydraulik (India) Vs.Union of India – 2003(6) AD(Delhi) 436 (c) Rajesh Arora Vs. Collector of Customs – 1998(1)AD(Delhi) 748. Although, Shri Surendra Singh, Advocate filed above written reply on behalf of M/s Janpriya Energy, however, they have not submitted any Vakalatnama from M/s. Janpriya Energy or any authorization from the party to appear on behalf of the party. Further the said letter dated 30.04.2019 is also not signed by Shri Surendra Singh, Advocate and does not have any receipt no. on the letter, hence the said written reply may not be taken into consideration.

15.2. Vide Authority Letter dated 18.06.2019, Shri Naval Kishore C Pitti, the proprietor of M/s. Jan Priya Energy has authorized Shri Mukesh C. Pitti to attend / act on his behalf in the subject matter for personal hearing and to submit reply. Accordingly, Shri Mukesh C. Pitti authorized signatory of M/s. Jai Mata Chintpurni Impex, 11/1, 2nd Floor, Punjabi Bagh Extension, New Delhi-110026 appeared for Personal Hearing on 21.06.2019 and requested to take lenient view in the matter as there was no malafide intention to import the restricted goods. He further said that the parameter of the product i.e. “Industrial Composite Mixture Plus” are overlapping with the SKO.

15.3. Shri Iqbal Rehman Sheikh, Shri Virbhadra Rao Illa and Shri Mritunjay Dasgupta appeared for Personal Hearing on 26.06.2019. Detail of the same is as under:-

(a) Shri Iqbal Rehman Sheikh representative of M/s Shree Sanari Shipping, Gandhidham submitted written submission vide his letter dated 26.06.2019 wherein he, inter alia, submitted that he was looking after handling work of Shri Virbhadra Rao of Shree Sanari Shipping whenever he is not available or busy with his social work. He further submitted that he is not involved in any illegal import of SKO as he had no prior knowledge or understanding with anyone for clearance or manage clearance of such type of cargo which is treated as restricted by Customs. He has never contacted anyone within or outside department for managing any
type of Test report. Hence, he is not liable for penalty. The above facts have also been reiterated by him during his Personal Hearing.

(b) Shri Virbhadrarao Illa Proprietor of Shree Sanari Shipping, Gandhidham submitted written submission vide his letter dated 26.06.2019 wherein he submitted that he is running a business at Gandhidham. He was appointed as a Handling Agent by Shri Naval Kishore Pitti, the Proprietor of Jan Priya Energy, Rajasthan to handle their Import Shipments from UAE i.e. 20X20' Containers in Flexi Bags of Industrial Composite Mixture Plus vide BL# SHLAEC18000478 dtd 06.08.2018. He mentioned that the scope of work in Handling is that after receiving the Import related documents from Jan Priya Energy, the said documents were further handed over to CHA (MAT Shipping), Gandhidham after completing all required Custom procedures and Duty payment, the said CHA submit the Original Out of Charge Order to the concerned CFS for Delivery and inform him for delivery of the cargo verifying/approval of the checklist, correspondence with Shipper Container Line, for collection of Delivery Order from Shipping Line, reporting for Movement of Loaded Containers from Vessel to CFS, to arrange for De-stuffing of the cargo from Containers/Flexi Bags and pumping to Tankers, for all the said work he raised invoice for Handling & De-stuffing. He further submitted that he is not involved in any illegal import of SKO as he had no prior knowledge or understanding with anyone for clearance or manage clearance of such type of cargo which is treated as restricted by Customs. He has never contacted anyone within or outside department for managing any type of Test report. Hence, he is not liable for penalty. The above facts have also been reiterated by him during his Personal Hearing.

(c) Shri Mritunjay Dasgupta, Proprietor of M/s Mat Shipping submitted written submission vide his letter dated 26.06.2019 wherein he submitted that Shri Virbhadrarao and Shri Iqbal Rahman Shaikh are well known persons since last 25 years and are engaged in same shipping business, as they both have good contacts with Indian Importers, accordingly they proposed him for Custom Clearance of ICMP/LAWS as he is having the Custom Broker Licence. He collected market opinion and as per last three years import details, ICMP/LAWS were imported at Kandla/Mundra in huge quantity and so many importers and Custom Brokers are engaged in same commodity. They always used to handover/email him import consignment documents of ICMP/LAWS which are listed in OGL and freely importable. He used to take the documents and file the said documents in Customs after getting approval from their side for clearance of the goods/cargo as per Customs norms. After filing bill of entry of ICMP/LAWS as per customs procedure always he took first check examination for proper analysis of goods. As per procedure all samples were drawn by Preventive officer (DE) with Superintendent (DE) and sealed sample forwarded directly to CRCL, Kandla for testing. There is no involvement of any other persons for carrying out the sample drawn and forward procedure. He submitted that he never approached any person of CRCL Kandla for taking care of samples as he was submitting all reports online in EDI systems as per schedules testing method. He approached CRCL Kandla only for early submission of report in EDI system to avoid container detention and demurrage.
charges. He strictly followed all customs formalities to avoid indulging in the conspiracy of attempting of illegal clearance of SKO. After completion of proper Customs procedure, all original out of charge documents were submitted to the concerned CFS officials for taking delivery of import cargo/goods. He used to charge his Agency charges to Shree Sanari Shipping, Gandhidham as Shri Virbhadra Rao is an importer as well as a Handling agent. He further submitted that he had never taken any cash or extra charges from Shri Virbhadra Rao to make illegal gratification to anybody and is not involved with anyone for clearances or manage clearances of such types of cargo which is treated as restricted by customs. He never contacted anyone within or outside department to manage any test report. Regarding Custom clearance of Import 20X20’ Cont vide Bill of Entry No. 7730154 dated 21.08.2018 of Jan Priya Energy, Nagaur, Rajasthan, the said Consignment was imported under OGL and the same is filed Home Consumption Bill of Entry with Kandla Custom for the Clearance. There is no involvement of him for deliberate acts and omissions in this shipment. Hence, he is not liable for penalty. The above facts have also been reiterated by him during his Personal Hearing. He further said in his Personal hearing that nowhere in the Whatsapp chat there is conversation about illegal gratification. He only chatted about his agency charges in his bank account. No illegal gratification can be asked to deposit in Bank. There was no reason to approach the office of the CRCL or Customs.

15.4. Shri Rajendra Prasad Meena, Chemical Examiner, Gr-I appeared for Personal Hearing on 16.07.2019 and inter alia said that the allegations are not correct as in three cases the Test Reports issued by him are against the importers. In one case (Shagun Enterprises) no Test Report was issued and in one more case wherein two Bills of Entry are involved one of his report is against the importer. The Chemical Examiner Grade-I issues report with the approval of the Jt. Director after preparing the same on the basis of parameters reported by the Asstt. Chemical Examiner / Chemical Asstt. The case is based on the statements of Shri Iqbal Rehman Sheikh, Shri Virbhadra Rao IIIa and Shri Mritunjay Dasgupta. Therefore, he requested that the cross examination of these persons may be allowed. He further said that he is also submitting written submission dated 16.07.2019. He further stated that the contents of this PH Memo are same for all cases. The written submission for each case is separate.

15.4.1. Shri Rajendra Prasad Meena, Chemical Examiner, Gr-I submitted his written submission vide letter dated 16.07.2019 wherein he inter alia submitted as follows:-

(i) At the outset he denied all the charges leveled against him in the instant SCN.
(ii) He submitted that, it is a fact that in total six SCNs total seven consignments are covered. Out of the seven consignments, he did not receive or issue report in respect of one consignment i.e of M/s Shagun Enterprises. He knows nothing about the consignment of M/s Shagun Enterprises. In respect of three test reports i.e. of M/s Shree Sanari Shipping, M/s Jai Mata Chintpurni and M/s V.V Enterprises (B/E No. 7752740), he said that he reported that the goods were Kerosene (SKO). These reports were in conformity with the test reports issued by CRCL and claim of DRI. In respect of one sample i.e. of M/s V.V Enterprises (B/E No. 7755202)
he had reported that it was not Low Aromatic Solvent. This report was also against the claim/declaration of the importer. Further, in respect of one sample i.e. of M/s G.R Pahwa, he had reported that it was Light oil. He said that Light oil is not freely importable. This test report is also against the claim/declaration of the importer. The only test report issued by him which has been alleged to be different from the Test Report issued by CRCL is in case of M/s Janpriya Energy. He had reported that it is other than light oil/SBPS/ATF/SKO/HSD/LDO. He submitted that he had issued the Test report correctly on the basis of parameters reported by the officer who tested/analyzed the sample.

(iii) He submitted that the alleged test of all the six consignments except that of M/s Shagun Enterprises were not conducted by him and in fact conducted by his subordinates viz. Chemist/Astt Chemical Examiner and from the parameters derived on testing/analysis by them and reported to him, he issued the test reports. He further submitted that as per prevailing practice at Custom Lab at Kandla, all Test Reports are issued with the approval of the Joint Director, Customs Lab Kandla. Accordingly, these test reports were also issued with the approval of the Joint Director, Customs Lab Kandla.

(iv) He submitted that his duties were to assist the Director (Revenue Laboratories) and Joint Director in day to day technical and administrative works and to issue the test reports under his signature and offer technical requirements as required. The duties of subordinate officers, like Assistant Chemical Examiners and Chemical Assistants, are to analyze the samples and Assistant Chemical Examiners are also duty bound to assist him. His subordinate officers used to analyze the samples received in the Custom House Laboratory at Kandla. They used to submit all the parameters and specifications found on analysis to him. He used to examine the same and put up to Joint Director for vetting of the same. After verification of the Test Report by the Joint Director, Custom House Laboratory at Kandla, he used to issue test reports. He did not play any direct role in analysis and any role in recording parameters/specification of product under analysis. He said that it is alleged that the Customs Broker had collected certain amounts from the other persons/importers for giving it to him to keep the Final Boiling Point under 240°C. But in view of the fact which is also on record in the form of statements of my subordinate officers, it is undisputed fact that the parameters/specifications were observed by such subordinate officers without any role or intervention by him. It is absolutely false that he had aided or abetted anybody in testing of changing or manipulating the parameters. The fact which is on record is that he had no role in testing and reporting parameters/specifications. He further submitted that most of the reports were issued by him against the claim/declarations of the importers rendering confiscation of the goods and imposition of penalties on importers. He said that the allegations are baseless, false and not supported by any evidence.

(v) He submitted a copy of literature of ASTM D-86 method in respect of difference between Test Report issued by him and CRCL, New Delhi. In para 13.1.1 of the said ASTM, it is stated that there may be difference between successive test results obtained by the same operator using the same apparatus under constant operating conditions on identical test material. For the
range 135° to 260°, it has been reported that there may be difference of 3.33°. It is also reported therein that in one out of twenty cases, the difference may be even more. In Para 13.1.2 of the said ASTM, it is mentioned that difference between two single and independent test results, obtained by different operators working in different laboratories on identical test material may differ by 6.78° in the range of 135° to 260°. It is also reported therein that in one out of twenty cases, the difference may be even more. Since in this case the tests were conducted at different times at different places (Kandla and Delhi) by different operators on different instruments, there may be some difference in Parameters/specifications observed and reported. He further submitted that human error by the testing person in testing or observing at Delhi or at Kandla cannot be ruled out.

(vi) He lastly submitted that as per statements of the officers who had conducted the tests i.e. Assistant Chemical Examiner/Chemical Assistant have specifically stated that he had not given any direction to them and they had conducted tests and reported the parameters at their own. His duty was to study the parameters/specifications observed and reported by them and to issue test report. The test reports are invariably verified by the Joint Director, Customs Laboratory, Kandla. He had no role as alleged in testing or observing the parameters/specification of the sample.

15.4.2. Shri Rajendra Prasad Meena’s request for cross examination was conceded and the same was held on 26.08.2019 in this office. Detail of the same is as under:-

(a) Cross Examination by Shri Rajendra Prasad Meena to Shri Virbhadrarao Illa:-

Que: Since when you know me?
Ans: I have never met you. I met you first time in the chamber of SIO during submission of Surety Bond in office of DRI, Gandhidham.

Que: Had you ever contacted me or talked telephonically for any purpose?
Ans: No

Que: Had I ever contacted you or talked telephonically for any purpose?
Ans: No

Que: Had you ever asked me for manipulation of any test report?
Ans: No

Que: Had you ever offered me any illegal gratification?
Ans: No

Que: Had I ever asked you for any gratification or any other favour?
Ans: No.

(b) Cross Examination by Shri Rajendra Prasad Meena to Shri Mritunjay Dasgupta:

Que: Since when you know me?
Ans: For last 27 months.

Que: Had I contacted you for any purpose other than for buying multi-vitamin tablets/health supplements?
Ans: No
Que: Had you ever asked me for manipulation of any test report?
Ans: No
Que: Had you ever offered me any illegal gratification?
Ans: No
Que: Had I ever asked you for any gratification or any other favour?
Ans: No.
Que: Whether all test reports issued by me (in respect of consignments wherein you were Customs Broker) are in favor of the importer?
Ans: No.

(c) Shri Iqbal rahman Sheikh did not appear for cross examination on the said date.

15.4.3. Further Examination of Shri Rajendra Prasad Meena was done by this office. The details of which are as follows:-

Que: Why Shri R.P Meena, Chemical Examiner Gr. I approached to the court for anticipatory bail, when nothing has been done?
Ans: Due to fear of arrest he approached the court.
Que: What was the fear and why?
Ans: No reply.
Que: Why Shri R.P Meena, Chemical Examiner Gr. I was not appeared before the DRI on summoning him on various occasions?
Ans: No reply.
Que: Are you aware about the Boiling point, what is it?
Ans: Any chemical which boils on that pointing temperature is known as boiling point.
Que: What is the difference between “Above 240 degree Celsius” and “Below 240 degree Celsius”?
Ans: The products which starts boiling below 240 degree Celsius comes under “Below 240 degree Celsius” and the products which start boiling above 240 degree Celsius comes “Above 240 degree Celsius”.

15.5. Vide letter dated 13.07.2019, Shri R.K Tomar, Advocate, Bombay High Court submitted Vakalatnamas under which he has been engaged as Legal counsel by M/s Sunrise Petroleum FZC, Sharjah, UAE. Vide letter dated 16.07.2019, Shri R.K Tomar mentioned that M/s Sunrise Petroleum is a company beyond the jurisdiction of Indian Customs Act, 1962 and sought clarification as to under which provisions of law above named company has been made party in the case.

15.5.1. This office vide letter dated 02.08.2019 addressed to Shri R. K Tomar quoted Section 1 of the Customs Act, 1962 wherein it is mentioned that it extends to the whole of India and it applies also to any offence or contravention there under committed outside India by any person.
15.5.2. Shri R.K Tomar Advocate for M/s. Sunrise Petroleum FZC, Sharjah, UAE gave a written submission dated 19.08.2019 wherein he submitted that jurisdiction of Indian Customs Act, 1962 upon business entities in other countries was provided vide the Finance Act, 2018, which provisions were available at the time of initiation of investigations. Despite the jurisdiction (though not admitted) under the provisions of the Customs Act, 1962 on the Noticee, the Revenue has not exercised the powers to investigate the role of the Noticee, the same cannot be invoked only to implicate the Noticee as an afterthought. The noticee has not been investigated in respect of the present proceedings and has not been provided the opportunity during investigation to clear the mis-conceptions entertained by the revenue. He submitted that M/s Sunrise Petroleum FZC has supplied the said goods as ICMP based on the trade practices prevalent in the international trade of UAE, Sharjah. The noticee has not traded in SKO, they have bought ICMP from international markets and supplied the same to the Indian buyers. There could be difference in testing methods in India and UAE resulting in the said goods being named in India as SKO, which cannot be blamed on the noticee. He further submitted that since M/s Sunrise Petroleum FZC, Sharjah (UAE) is incorporated abroad, the Indian laws including the Customs Act, 1962 does not apply to them. He has relied on the order of the Hon’ble CESTAT, Ahmedabad in the matter of Advance Exports vs. Commissioner of Customs, Kandla reported vide 2007 (218) E.L.T 39 (Tri.-Ahmd). The relevant part of the same is as:

"Apart from above, we find that imposition of penalty on M/s G.A International and Shri Rajesh Adani, partner of M/s G.A International is not in accordance with law as much as M/s G.A International is admittedly a company operating from Dubai and the Customs Act has no application in foreign land".

He further submitted that the Revenue has not conducted any investigations to bring out the role of the Noticee warranting imposition of penalty under the Indian Customs Act, 1962. In absence of any investigation, the allegations are only fig of imaginations and purely assumptions and presumptions. Penal proceedings under any law cannot stand only on the basis of allegations, assumptions and presumptions as the same are illegal and against the principles of natural justice. He has relied on the order of Hon’ble CESTAT, Kolkata in the matter of Ram Naresh Chaurasiya Vs. Commissioner of Customs (Prev.), Patna reported vide 2019 (365) E.L.T 940 (Tri.-Kolkata). The relevant part of the same is as:-

"Gold Bars-Smuggling-Evidence- Two Gold bars recovered from the residential premises owned by the appellant’s father not having any foreign marking-No further investigation being made by the Department thereafter, no evidence adduced by Department to prove that the said two gold bars were smuggled. Therefore, presumption regarding smuggled nature of seized gold under Section 123 of Customs Act, 1962 not invocable-Seized
gold neither legally confiscable under Section 111(b) ibid nor any penalty could be imposed on the appellant”.

He has further submitted that the penalty under Section 112(a), 114AA and 117 of Customs Act, 1962 is not imposable as:

(i) Section 112(a) of Customs Act, 1962 will be applicable for improper importation of goods for their liability to confiscation under Section 111 of the Customs Act, 1962. Section 111 of Customs Act, 1962 states that “The following goods brought from a place outside India shall be liable to confiscation”. He has said that the Noticee has not brought said goods from a place outside India into India. Therefore, noticee is not covered under provisions of Section 111 of Customs Act, 1962 and no penalty under section 112(a) can be imposed on noticee.

(ii) Regarding imposition of penalty under Section 114AA, he has submitted that the provisions of law will apply to a person who knowingly or intentionally makes, signs or uses, or causes to be made, signed or used, any declaration, statement or document which is false or incorrect in any particular. The noticee has neither intentionally made, signed or used any declaration, statement or document which is false or incorrect nor intentionally caused to be made, signed or used, any declaration, statement or document which is false or incorrect in any particular. The allegations that the noticee provided importers in India with the false/forged documents is not only preposterous but also patently false. He submitted that neither any Indian Policy (purportedly the Foreign Trade Policy under the FTDR Act, 1992 and Rules made there under) nor the provisions of Petroleum Act, 1934 apply to any territory beyond India, therefore there cannot be any violation of the same by a business entity registered/incorporated outside India and operating from a place beyond the territory of India.

(iii) Regarding imposition of penalty under Section 117 of Customs Act, 1962, he has submitted that the Revenue has to specifically mention the contravention(s) of the Customs Act, 1962 or any abetment of any such contravention or failure to comply with any provision of the Customs Act, 1962. However, the Revenue has failed to mention any contravention of the Customs Act, 1962 which are not covered under the Sections 112 and 114AA of the Customs Act, 1962 which could attract provisions of Section 117 of the Customs Act, 1962.

He lastly submitted that the Noticee is not the importer of the said goods into India and since, the penalty is proposed to be imposed in respect of the import of said goods, the Noticee cannot be visited with imposition of any penalty under any provisions of law as it has not violated any law in respect of the import of the same into India.

15.6. Shri Rajesh Padaria, Proprietor of M/s Yes Corporation gave a written submission dated 13.07.2019 in which he inter-alia submitted that he is doing trading business of various commodities in Gujarat. From reliable sources, he came to know that some petroleum product is imported at the port of Kandla in Containers in Flexi Bags which is called/known as Industrial
Composite Mixture Plus, after searching in the market, he approached one of the Transporter for the said cargo. The said Transporter told him that the said cargo is under Custom clearance and after duty payment the cargo will be delivered. He further submitted that the Transporter told him to talk to the Importer i.e M/s Jan Priya Energy, Rajasthan directly for the said cargo. After approaching the importer he had arranged for two tankers for delivery of the cargo. But the cargo was held by Custom officials. He lastly submitted that as he had not taken delivery of even a single litre of cargo and is not involved in any illegal activities, he has requested to cancel/waive his personal hearing.

DISCUSSION AND FINDINGS

16. I have carefully gone through the case records, documents relied upon documents under the Show Cause Notice, facts of the case and the submissions made by the importer and other co-noticees. All the noticees have submitted their written as well as oral submission. Before going into the merit and demerit of the case, it is pertinent to mention here that the Board (Principal Director General, Revenue Intelligence) vide Notification No.32/2015-Customs(N.T.)/CAA(DRI) dated 24.07.2019 has appointed the Additional Commissioner of Customs, Kandla Custom House, Kutch for this case too as a Common Adjudicating Authority. However, the SCN No.DRI/AZU/GRU-3/SKO-Janpriya/[INT-12/2018]/2019 dated 26.02.2019 issued in this case is exclusively answerable to the Additional Commissioner of Customs, Custom House Kandla and accordingly the SCN is taken into consideration for adjudication.

16.1. I find that the following major issues are to be decided under the Show Cause Notice:-

a. Cancellation of the clearance granted to 351.82 MTs goods imported vide B/E No. 7730154 dated 21.08.2018 declaring the same as ICMP falling under CTH No. 27101990 based on false test report on 28.08.2018 under Section 47 of the Customs, Act 1962;

b. Re-assessment of the B/E No. 7730154 dated 21.08.2018 with correct description and classification as SKO falling under CTH No.27101910 instead of declared description as ICMP under CTH No. 27101990 under Section 17 of the Customs Act, 1962.

c. Import of 351.88 MTs SKO, falling under CTH No. 27101910, having declared value of Rs. 1,66,95,237/- (market value of Rs. 2.53.00 Crore approx.) covered under Bill of Entry No. 7730154 dated 21.08.2018 mentioned in Table-A in the Show Cause Notice by mis-declaring as "Industrial Composite Mixture Plus" rendered liable for confiscation under section 111(d), 111(m) and 111(p) of the Customs Act, 1962;

d. Consequent penalties proposed under Section 112(a) & (b) (i), 114AA and 117 of the Customs Act, 1962.

16.2. Now, coming to the first issue that M/s. Jan Priya Energy [IEC No. 1311005722], Delhi Gate A Road, Near Vijaya Bank, Peer Jado Mohalla, Nagaur, Rajasthan – 341001 had filed Bill of Entry No. 7730154 dated 21.08.2018 for clearance of 351.82 MTs (20 containers) of "Industrial Composite Mixture Plus" (ICMP). On verification of the test reports dated 28.08.2018 and
28.09.2018 issued by CRCL, Kandla and CRCL, New Delhi, respectively, I find that as both reports differ from each other as CRCL, Kandla has confirmed that the sample is “Other than Light Oil/SBPS/ATF/SKO/SHD/LDO” whereas, as per CRCL, New Delhi the sample meet the requirements of SKO (Kerosene) as per IS: 1459:1974. Further, I find that the imported goods i.e. SKO (Kerosene), which is classifiable under CTH No. 27101910, but the same was attempted to be cleared from Customs by mis-declaring its description as “Industrial Composite Mixture Plus” with wrong classification under CTH 27101990. The total value (excluding duties of customs) covered under aforesaid Bill of Entry is Rs. 1,66,95,237/-, as declared in the Bill of Entry and the market value of the said goods is Rs. 2.53 Crores approx. (as per website of IOC-L non subsidized price in metro in Oct., 2018). Further, I find that, being a petroleum product, the SKO (Kerosene) is restricted for importation and clearance thereof as import of the same is allowed through State Trading Enterprises (STEs) as provided under Foreign Trade Policy 2015-2020.

16.3. I find that considering the aforesaid violations of the Policy Provisions in respect of the goods covered vide aforesaid Bill of Entry, the goods pertaining to the same were placed under seizure vide Seizure Memo dated 03.10.2018, which was served on the importer M/s. Jan Priya. The goods so seized handed over for safe custody to the CWC CFS, Kandla under Supratnamana dated 03.10.2018.

16.4. I find that as per Para 2.20 of the Foreign Trade Policy 2015-2020, which was notified under Section 5 of the Foreign Trade (Development and Regulation) Act, 1992 specified as follow:-

(a) State Trading Enterprises (STEs) are governmental and nongovernmental enterprises, including marketing boards, which deal with goods for export and /or import. Any good, import or export of which is governed through exclusive or special privilege granted to State Trading Enterprise (STE), may be imported or exported by the concerned STE as per conditions specified in ITC (HS). The list of STEs notified by DGFT is in Appendix-2J.

(b) Such STE(s) shall make any such purchases or sales involving imports or exports solely in accordance with commercial considerations, including price, quality, availability, marketability, transportation and other conditions of purchase or sale in a non-discriminatory manner and shall afford enterprises of other countries adequate opportunity, in accordance with customary business practices, to compete for participation in such purchases or sales.

(c) DGFT may, however, grant an authorisation to any other person to import or export any of the goods notified for exclusive trading through STEs.

Further to the above, the Policy condition (2) prescribed at Schedule I of the ITC (HS) Classifications on Import Items 2015-2020, Section V, Chapter 27 specified as follow:

“(2) Import of SKO shall be allowed through State Trading Enterprises (STEs) i.e. IOC, BPCL, HPCL, and IBP for all purposes with STC being nominated as State Trading
Enterprises (STE) for supplies to Advance Licence Holders. Advance Licence Holders shall however, have the option to import SKO from the above mentioned STEs including STC.”

I find that the importer in this case is neither an STE (State Trading Enterprises) nor has submitted any documents showing grant of such rights by the DGFT to import or export any of the goods notified for exclusive trading through STEs. The list of such STEs for FTP purpose is as provided under Appendix-2J of the Foreign Trade Policy 2015-2020.

16.5. Further, I find that the SKO falls in the category of “Petroleum Class B” and import, storage and handling of the same are governed by the provisions of the Petroleum Act, 1934 (30 of 1934). License under the Petroleum Rules, 1976 is mandatory for import of goods falling under “Petroleum Class B”. Any import made in contravention of the provisions of the Petroleum Act, 1934 (30 of 1934) may be treated as deemed violation of the provisions of Section 11 of the Customs Act, 1962.

16.6. I find that it is unequivocally proved that the importer has mis-declared the description and classification of imported goods as “Industrial Composite Mixture Plus” under CTH No. 27101990 instead of “SKO (Kerosene)” under CTH No. 27101910, by suppressing its correct description as SKO and that the condition stipulated for import through or by STE or against the Special authorization issued by the DGFT, as per the Foreign Trade Policy 2015-2020, as well as conditions of compliance with the provisions of Petroleum Act, 1934 (30 of 1934), were not at all complied with by the importer M/s. Jan Priya, in respect to the import of SKO made by them, which was allowed to be cleared on the basis of manipulated test report under the aforesaid B/E. Therefore, the said goods required to be treated as Prohibited Goods/Restricted goods in terms of Import Export Policy, 2015-2020. Therefore the imported goods are liable for confiscation under Section 111(d) and 111(p) of the Customs Act, 1962.

16.7. I find that as per provision of Section 46(4) of Customs Act, 1962, the importer while presenting a Bill of Entry shall make and subscribe to a declaration as to the truth of the contents of such Bill of Entry and shall in support of such declaration, produce the proper officer the invoice, if any or any other documents relating to the imported goods. Further, as per Section 46(4A) of the Customs Act, 1962, the importer, who presents a Bill of Entry shall ensure the accuracy and completeness of the information given, the authenticity and validity of any document supporting it and compliance with the restriction or prohibition, if any related to the goods under this Act or any other law for the time being in force. However, in the instant case, the importer failed to provide the accurate and complete information about the goods and has imported Superior Kerosene Oil (SKO) in guise of Industrial Composite Mixture Plus (ICMP) with wrong classification thereof under CTH 27101990. Therefore, the goods imported by the importer as such, is also liable for confiscation under Section 111(m) of the Customs Act, 1962.
16.8. In view of the above, I find that the above said imported goods having total assessable value of Rs. 1,66,95,237/- are liable for confiscation under Section 111(d), 111(m) and 111(p) of the Customs Act, 1962.

17. Now I will go through the second issue related to the role of the persons involved in the entire episode and in a nexus to import the “Petroleum Products” which are restricted under Import Export Policy, in the guise of “Industrial Composite Mixture Plus” (ICMP) and I find that During the course of investigation, the mobile phones, Laptop and Hard Disk, which were resumed from the respective persons, were taken to the Central Forensic Laboratory, DRI, Mumbai Zonal Unit, for analysis of the data contained therein. Further, the data retrieved from the electronic devices like Hard Disk, Mobile phones and Laptop, which were resumed/voluntarily surrendered by the concerned persons were examined and investigated. Further, various statements of the persons, involved in the racket, were also recorded by the Investigating Agency. On the basis of documentary evidences and their statements the role of each persons are looked into for the purpose of Section 112, 114AA and 117 of the Customs Act, 1962.

17.1. Role of Shri Nawal Kishore Pitti, Proprietor of M/s. Jan Priya Energy (IEC No. 1311005722), Delhi Gate A Road, Near Vijaya Bank, Peer Jado Mohalla, Nagaur, Rajasthan – 341001:-

I find that Shri Nawal Kishore Pitti, Proprietor of M/s. Jan Priya and imported the said consignment of 351.82 MT of declared value of Rs. 1,66,95,237/- vide Bill of Entry No. 7730154 dated 21.08.2018 and declared “Industrial Composite Mixture Plus” under CTH No. 27101990 instead of “SKO (Kerosene)” under CTH No. 27101910, which has been confirmed by CRCL, Delhi in their reports.

Shri Nawal Kishore Pitti in his statement recorded on 03.10.2018, 04.10.2018 and 09.01.2019 under section 108 of the Customs Act, 1962 has showed his agreement with the test results as per test report dated 28.09.2018 of CRCL, New Delhi in respect of the sample drawn vide Bill of Entry no. 7730154 dtd. 21.08.2018 at Central Warehousing Corporation (CWC), CFS, New Kandla and the cargo meets the requirement of the parameters of Superior Kerosene Oil (SKO). He also agreed that the Superior Kerosene Oil (SKO) is restricted item and can only be imported through State Trading Enterprises (STE) as per CTH and FTP.

Shri Virbhadra Rao of M/s. Shree Sanari Shipping facilitated Shri Nawal Kishore Pitti proprietor of M/s Jan Priya by way of manipulating test reports through Chemical Examiner at Kandla Laboratory in order to clear the consignment having restricted nature. Shri Virbhadra Rao Ila stated the names of importers including M/s. Jan Priya, on behalf of whom he got the test results manipulated by the Chemical Examiner through Shri Mrityunjayada Dasgupta, Proprietor of CHA firm M/s. MAT Shipping. The deal between Shri Virbhadra Rao Ila and Shri Mrityunjayada Dasgupta for getting the favourable test reports by way of paying illegal gratification to the Chemical Examiner is also confirmed from the WhatsApp chat held between the duo and confirmed by Shri Virbhadra Rao Ila in his statements dated 03.10.2018 and
04.10.2018. As per the evidences and statement of Shri Virbhadra Rao Illa of M/s. Shree Sanani Shipping and Shri Mritunjay Dasgupta of CB firm M/s. MAT Shipping, it is unequivocally proved that he was actively involved in the fraud to get monetary benefits.

These deliberate acts of commission and omission on the part of Shri Naval Kishore Pitti, Proprietor of M/s. Jan Priya, have rendered the said quantity mentioned above at Table-1 liable to confiscation under provisions of Section 111 (d), 111 (m) and 111 (p) of the Customs Act, 1962 and had also made M/s. Jai Mata Chintpurni Impex, Delhi liable to penalty as per provisions of Section 112 (a) and (b) and Section 114AA of the Customs Act, 1962. Further, Shr. Naval Kishore Pitti has deliberately avoided to appear in response to the summons issued to him under Section 108 of the Customs Act, 1962, not provided the details and documents being asked for from him, which being in violation of Section 108 of the Customs Act, 1962, he is liable for penalty under Section 117 of the Customs Act, 1962 for the same.

17.2. **Role of Shri Virbhadra Rao Illa, Proprietor of M/s. Shree Sanani Shipping, Gandhidham:**

I find that Shri Virbhadra Rao Illa is a proprietor of M/s Shree Sanani Shipping, Gandhidham played a role of handling agent for importer M/s Jan Priya. From his statement recorded on 29.08.2018, 03.10.2018 and 04.10.2018 under section 108 of the Customs Act, 1962, it is unambiguously proved that he connived with Shri Naval Kishore Pitti (Importer), Shr. Mritunjay Dasgupta (Customs Broker) Proprietor of M/s MAT Shipping, Gandhidham for getting the favourable test reports by way of paying illegal gratification to the Chemical Examiner to the tune of Rs.40,000.00 to Rs.1,25,000.00, which is also confirmed from the WhatsApp chat held between him and Shri Mritunjay Dasgupta. He also confirmed, in his statements, that since October, 2017 to till date, he has given cash around Rs. 7 lakh to Rs. 8 lakh to Shri Mritunjay Dasgupta for further handing over to Shri R. P. Meena, Chemical Examiner, CRCL, Kandla to get favourable reports from him. Although, vide his letter dated 26.06.2019, which was submitted during personal hearing on 26.06.2019, he denied the charges of illegal gratification to anybody, however, the fact remains that, he accepted in his Statements dated 29.08.2018, 03.10.2018 and 04.10.2018, that he has paid Rs. 40,000.00 to Rs.1,25,000.00 to Shri Mritunjay Dasgupta for further handing over to Shri R.P .Meena, Chemical Examiner, Grade-1 to get favourable reports from him, hence denying the charges during personal hearing is nothing but after thought. Further, with regards to the statements of the noticees recorded under Section 108 of the Customs Act, 1962, I rely on the case of **Surjeet Singh Chhabra v. Union of India, 1997 (89) E.L.T. 646 (S.C.),** wherein the Supreme Court has held that confessional statement made before Customs officer is an admission and binding since Customs officers are not police officers in terms of Section 25, Evidence Act, 1973. The Madras High Court in the case of **Assistant Collector of Customs v. Govindasamy Ragupathy, 1998 (98) E.L.T. 50 (Mad.)** held that confessional statement made under Sec. 108 of Customs Act, 1962 before Customs officers are to be regarded as voluntary. It is settled legal proposition that statement recorded under section 108 of the Act is admissible unlike a statement recorded by a Police Officer.
noticees have not retracted/rebutted from their confessional statements. Hence, their admitted facts need not be required to be proved.

Shri Virbhadr Rao was very much aware that the cargo imported in the name of ICMP is actually of ‘Restricted’ category but he involved himself in paying illegal gratification to officers of Custom House Laboratory, Kandla. Shri Virbhadr Rao has also facilitated M/s. Jan Priya Energy with other importers by way of manipulating test reports through Chemical Examiner at Kandla Laboratory in order to clear the consignment having restricted nature. By these deliberate acts and omissions, he also abetted the practice of illegal imports of restricted goods into India, actively engaged and facilitated practices which were in contravention of the provisions of Customs Act, 1962 as well as other Statutes. By these acts, Shri Virbhadr Rao Illa, Proprietor of M/s. Shree Sanani Shipping, Gandhidham has rendered himself liable to penalty under provisions of Section 112 (a) & (b) (i) and Section114AA of Customs Act, 1962.

17.3. **Role of Shri Iqbal Rahman Shaikh Representative of M/s. Shree Sanare Shipping, Gandhidham:**

I find that Shri Iqbal Rahman Shaikh, representative of M/s Shree Sanari Shipping is actually an Instrumental in placing Orders with the supplier on behalf of M/s Sanari Shipping and other importers such as M/s V.V. Enterprise, M/s Jay Mata Chintpurni Impex, M/s Janpriya, M/s G.R. Pahwa Enterprise, M/s Shagun Enterprises etc. He was also playing a role of a representative of M/s Shree Sanari Shipping. He was very much aware that the cargo imported in the name of ICMP is actually of ‘Restricted’ category but he abated with Shri Virbhadr Rao Illa in paying illegal gratification to officers of Custom House Laboratory, Kandla. He also accepted in his statement dated 29.08.2018 and 04.10.2018 that for getting favourable reports from the Chemical Examiner of CRCL, Kandla, Shri Virbhadr Rao Illa and Shri Mritunjay Dasgupta, both were involved in paying illegal gratification to the tune of Rs. 40,000.00 to Rs. 1,25,000.00. By these deliberate acts and omissions, he also abetted the practice of illegal imports of restricted goods into India, actively engaged and facilitated practices which were in contravention of the provisions of Customs Act, 1962 as well as other Statutes. By these acts, Shri Iqbal Rahman Shaikh, representative of Shree Sanani Shipping has rendered himself liable to penalty under provisions of Section 112 (a) & (b) (i) and Section114AA of Customs Act, 1962.

17.4. **Role of Shri Mritunjay Dasgupta (Customs Broker) Proprietor of M/s. MAT Shipping:**

I find that Shri Mritunjay Dasgupta (Customs Broker) in his statements dated 29.8.2018 and 04.10.2018 categorically accepted that he used to approach the CRCL, Kandla laboratory and requested them to issue the report at the earliest with taking care of the final boiling point of the cargo and that should be below 240 degree Celsius. The instructions regarding the final boiling point was conveyed to him by Shri Virbhadr Rao and Shri Iqbal of M/s. Shree Sanari Shipping and in turn he was conveying the Lab officers to issue the Lab Test Report accordingly i.e. below 240 degree Celsius. This adjustment was made in the Lab Test Report, because if the
final boiling of the material is more than 240 degree Celsius, its CTH will change and the item will fall under the restricted category. For adjusting the final boiling point figure in the test report, the amount of Rs. 40,000/- to Rs. 1,00,000/- was fixed, depending on number of containers per Bill of Entry to Shri R. P. Meena, Chemical Examiner of Kandla Laboratory. He had not met any of the above named importers till the case was booked by DRI. He was working for the importers on the directions of Shri Virbhadr Rao and Shri Iqbal of M/s. Shree Sanari Shipping. He stated that he used to meet Shri R. P. Meena, Chemical Examiner Kandla to get favourable test report. He perused the test reports issued by CRCL, New Delhi in respect of seven bills of entry filed by above said importers of ICMP (Industrial Composite Mixture Plus) at Kandla port and in each of consignment, the test report confirmed that the goods to be meeting requirement of SKO (Kerosene) as per IS 1459:1974. After customs clearance the work relating to delivery or transportation for importers was looked after by Shri Iqbal Bhai or Shri Virbhadr Rao (Proprietor of M/s. Shree Sanari Shipping) or any other employee of M/s. Shree Sanari Shipping. Although, Shri Mritunjay Dasgupta, Proprietor of M/s MAT Shipping vide his letter dated 26.06.2019 submitted that he never approached any person of CRCL Kandla for taking care of samples as he was submitting all reports online in EDI systems as per schedules testing method. He also contended that nowhere in the Whatsapp chat there is conversation about illegal gratification. He only chatted about his agency charges in his bank account. No illegal gratification can be asked to deposit in Bank. However, the facts remain that he accepted in his statement, under section 108 of the Customs Act, 1962, on 29.08.2018 and 04.10.2018, that Rs. 40,000.00 to Rs. 1,00,000.00 has been fixed for adjusting the final boiling point figure in test reports with Shri R.P.Meena, Chemical Examiner, Grade-1. Shri Virbhadr Rao IIIa also confirmed in his statement that since October 2017 till the booking of the case by DRI, he has paid around 7 lakh to 8 lakh to him for onward payment to Shri R.P. Meena. I find that Shri Mritunjay Dasgupta, who is a Licensed Customs Broker, has abetted the practice of illegal imports of restricted goods into India. I find that his denial and retraction from the facts of illegal gratification for getting favourable test reports as admitted before DRI during investigation are afterthoughts and not found to be true and convincing. Further, with regards to the statements of the noticees recorded under Section 108 of the Customs Act, 1962, I rely on the case of Surjeet Singh Chhabra v. Union of India, 1997 (89) E.L.T. 646 (S.C.), wherein the Supreme Court has held that confessional statement made before Customs officer is an admission and binding since Customs officers are not police officers in terms of Section 25, Evidence Act, 1973. The Madras High Court in the case of Assistant Collector of Customs v. Govindasamy Ragupathy, 1998 (98) E.L.T. 50 (Mad.) held that confessional statement made under Sec. 108 of Customs Act, 1962 before Customs officers are to be regarded as voluntary. It is settled legal proposition that statement recorded under section 108 of the Act is admissible unlike a statement recorded by a Police Officer.

Therefore, I find him involved in violation of the obligations casted on such Licensed Customs Brokers in terms of Regulation 10 of the Customs Broker License Regulations, 2018
and liable to penalty under provisions of Section 112 (a) & (b) (i) and Section114AA of Customs Act, 1962.

17.5. Role of Shri R.P. Meena, Chemical Examiner Gr-I, Customs House Kandla Laboratory, Kandla, Kutch, Gujarat (Presently posted in CRCL, New Delhi):

I find that Shri Rajendra Prasad Meena (Shri R.P. Meena), Chemical Examiner Gr-I in Customs House Laboratory, Kandla (presently posted in CRCL, New Delhi) in his statements dated 24.12.2018, 27.12.2018 and 28.01.209 stated that Industrial Composite Mixture Plus (ICMP) as well as Low Aromatic White Spirit (LAWS) are the Petroleum based solvent and are the trade name of the commodities. There is no technical literature available for Industrial Composite Mixture Plus (ICMP) and Low Aromatic White Spirit (LAWS). Since there is no parameters for ICMP and LAWS, hence, the parameters fixed for ‘Petroleum Hydrocarbon Solvent’ as per IS (Indian Standard) 1745-1978, are kept in view while deciding it. They used to test the sample (for ICMP / LAWS) in their Lab in the light of IS (Indian Standard) 1745-1978. Prior to the allocation of the Chapter 27 to him, also the import of LAWS being made at Kandla and the testing standards/parameters set out in the previous cases have been continued by him without any major change therein. So far as ICMP is concerned, he was not aware about any previous imports in the said name and its previous standard of testing, but what he understood, the ICMP is also matching with the standards of LAWS, and hence, the parameters equal to the parameters for testing of LAWS are being maintained. SKO is also a Petroleum Hydrocarbon and the same is in almost nearby ranges of Solvent, although no specific parameters are provided for SKO as Solvent.

Shri Meena, further stated that as per Condensed Chemical Dictionary, Kerosene is a water-white oil liquid, strong odour with Density 0.81 gm/ml, Boiling Range – 180-300 degree Celsius, Flash Point- 100-150 Fahrenheit (37.7-65.5 degree Celsius), auto ignition temperature – 444 Fahrenheit (228 degree Celsius). Combustion properties can be improved by a proprietary hydro-treating process involving a selective catalyst. As per US EPA, Kerosene is the substance in this category are complex petroleum derived substances have Boiling Range of approximately 302 to 554 degree Fahrenheit (150-290 degree Celsius) and a carbon range of approximately C9-C16. CAS (Chemical Abstracts Service) No. of Kerosene is 8008-20-6 and API Gravity is 41.8-44.9, Aromatic Content: 15.5-19.6 Vol %, Olefin Content: 1.3-2.5 Vol %, Saturated Content: 79-82 Vol %, Distillation in degree Fahrenheit: 10%- 320-377 & Final- 468-538 (10%- 160-192 & Final- 242-281 in degree Celsius). The major components of the kerosene are branched and straight chain paraffins and naphthalenes (cycloparaffin), which normally account for 70% by volume. Aromatic hydrocarbons such as alkyl benzenes (single ring) and alkyl naphthalenes (double ring) do not normally exceed 20% by volume of kerosene. Olefins are usually not present at more than 5% by volume. As per BIS for Kerosene, the material shall consist of refined petroleum distillate; it shall be free from visible water, sediment and suspended matter. Inorganic Acidity – Nil; Distillation: a) Percent recovered below 200 degree
Celsius, Min - 20 b) Final boiling point, degree Celsius, Max - 300; Flash Point, degree Celsius, Min - 35 ; Smoke Point, mm. Min - 18; Total Sulphur, percent by mass, Max - 0.25. The distillation range is a deciding parameter for petroleum hydrocarbons and ICMP, LAWS & SKO are petroleum hydrocarbons. For issuing test report of ICMP / LAWS, they check its Distillation range, Flash point and Density. There is no such requirement available to decide the sample as ICMP / LAWS, moreover, for Low Aromatic Solvent, Distillation range: Initial boiling point min. 145 degree Celsius and Final boiling point max. 205 degree Celsius; Flash Point: 35 degree Celsius; and Aromatic Content max. - 40%. For test report of SKO in Kandla Customs Laboratory, they check Inorganic Acidity, Distillation Range, Flash Point and Smoke Point and as per BIS, there is no specific minimum range of SKO in Final Boiling Point but maximum range of SKO in Final Boiling Point is clearly defined; so, in this manner, it was difficult to give test report. In order to remove confusion, they started following the standards of US EPA (United States Environmental Protection Agency) with the permission of the Joint Director in which the Final Boiling Point range is 468-538 degree Fahrenheit (242-281 in degree Celsius).  

17.5.1. I find that with reference to test report dated 28.08.2018 in respect of Bill Of Entry No. 7730154 dated 21.08.2018 along with Test Memo 1033659 dated 24.08.2018 of Customs, Kandla and observation sheet /description, Shri Meena stated that the process to decide the Final Boiling Point in respect of this particular sample, first of all the sample good was taken in a distillation flask of 100 ml and then, it was heated slowly on a temperature starting from 80 degree Celsius. The temperature is increased thereafter and when the first drop was distilled, the temperature is noted as Initial Boiling Point, which was 150 degree Celsius for this particular sample. Thereafter, the temperature was increased gradually and the distilled quantity of sample goods was noted down at various intervals such as 10 ml, 20 ml and so on. When 95 ml and above quantity was distilled, the highest temperature point was noted as Final Boiling Point which was 239 degree Celsius in this case. But all this procedure was carried out by the Asstt. Chemical Examiner / Chemical Asstt. He had proposed that “It is other than light oil/SBPS/ATF/HSD/LDO” in respect of above shown test report. The Distillation range obtained for the sample is not in agreement as per IS: 1745-1978 for Low Aromatic Solvents.” Such observations were written in the test report at Customs House Kandla Laboratory since long, hence, he had been continuing the same practice without any major change therein. They followed the ASTM D-86 method for conducting the test at Customs House Kandla Laboratory and gave the correct test report on the basis of observations to the best of his knowledge. He knew Shri Miritunjay Dasgupta (commonly known as “Dass”) of M/s. MAT Shipping since June 2018 around as he severally visits the Custom House Kandla Laboratory in connection with test report, but did not know Shri Virbhadra Rao Illa of M/s. Shree Sanari Shipping.  

17.5.2. I find that there is difference between test results given by Customs House Laboratory, Kandla and CRCL, New Delhi for the same kind of goods. The same is given as under:-
Further, I find that for the difference in test reports Shri Meena clarified that both the tests had been performed by two different Asstt. Chemical Examiner/Chemical Asstt. He issued the test reports on the basis of the observation sheet / analysis, as provided to him by Asstt. Chemical Examiner / Chemical Asstt. after conducting the test on the goods and he gave the correct test report on the basis of observations and the same also had been verified by the Joint Director (JD), CH Kandla Laboratory. The CRCL might have some different and sophisticated instrument for conducting the test, which might result to change in the test report and he had no comments on it.

17.5.3. I find that there is a change in observations in test reports of the CH Kandla Laboratory issued for the similar type of goods which was imported before and after the investigation by DRI. For this difference, Shri Meena clarified that he issued the test reports only on the basis of the analytical findings and observations. He had no idea about Shri Virbhadra Rao and his firm, M/s. Shree Sanari, Gandhidham and no importer and no Custom Broker approached him regarding alteration/modification in Final Boiling Point in the test reports related to ICMP / Low Aromatic White Spirit. I find that in the instant case the test report, in respect of Bill of Entry No. 7730154 dated 21.08.2018, issued on 28.08.2018, confirmed that the sample is “Other than Light Oil/SBPS/ATF/SKO/HSD/LDO. The Distillation Range attained for the sample is not in agreement as per IS 1745:1978 for Low Aromatic Solvents”. Whereas, CRCL, Delhi vide report dtd. 14.09.2018 has confirmed as “On the basis of parameter u/r sample meets the requirement of SKO (Kerosene) as per IS:1459:1974 28.09.2018”. Therefore, it is undoubtedly clear that Shri Meena has issued a manipulated report to favour the importer.

17.5.4. I find that Shri R.P.Meena, Chemical Examiner-Gr-1, is well aware about the difference in Boiling points as accepted by him that if boiling point will be more than 240 degree, the results will be positive for SKO, hence he was keeping the range of Boiling point below 240 degree. I find that he hatched the conspiracy with Shri Virbhadra Rao Ilho, Shri Iqbal Rahman Shaikh and Shri Mritunjay Dasgupta with sole aim to get illegal gratification from these persons.
Shri Virbhadra Rao Illa, Shri Iqbal Rahman Shaikh and Shri Miritunjay Dasgupta, in their Statements recorded under Section 108 of the Customs Act, 1962, time to time, have accepted that they were paying Rs. 40,000.00 to Rs. 1,00,000.00, depending upon number of containers, to Shri R.P.Meena, C.E.Gr-1 for facilitation of the Test Reports in favour of them. The whatapp conversations between Shri Virbhadra Rao Illa and Shri Miritunjya Dasgupta, CB also confirms the said transaction of illegal gratification as “NORMAL-RS.40,000/-, “SPECIAL-RS.1,00,000/-” and SPECIAL-RS.1,12,000/-”(as the case may be).

17.5.5. I find that Shri R.P.Meena, C.E, Gr-1 asked for cross examination of Shri Virbhadra Rao Illa, Shri Iqbal Rahman Shaikh and Shri Miritunjay Dasgupta, CB, which was allowed by me on 26.08.2019. Shri Virbhadra Rao Illa and Shri Miritunjay Dasgupta appeared for cross examination, but Shri Iqbal Rahman Shaikh did not appear for cross examination. The main focus of this cross examination was to discard the charges of illegal gratification, therefore asked the same questions from Shri Virbhadra Rao Illa and Shri Miritunjay Dasgupta, where in both of them have said that they have not asked for manipulation of any Test report and never offered any illegal gratification. However, when examined by me on this cross examination that why Shri R.P.Meena CE, Gr-1 approached to the Court for anticipatory bail when nothing was done, he replied that due to fear of arrest he approached to the Court. Further when it was asked what was the fear?, he did not reply. He was further asked why you were not appeared before the DRI on summoning him on various occasions? He again did not reply. From this examination, it is seen that on the issue of running from DRI for statement, he does not have any explanation which prove him one of the part of the conspiracy of illegal importation in India of Prohibited/restricted goods by taking illegal gratification. Further, Shri Virbhadra Rao Illa, Shri Iqbal Rahman Shaikh and Shri Miritunjay Dasgupta, in their statements recorded under Section 108 of Customs Act, 1962, already confirmed that they were paying Rs. 40,000.00 to Rs.1,00,000.00 or some time Rs. 1,25,000.00, depending upon the containers, to Shri R.P.Meena, Chemical Examiner, Gr-1 for favourealbe Test Reports. Further Shri Virbhadra Rao Illa, in his statement dated 03.10.2018, confirmed that from October 2017 to till the date of statement he had given around Rs. 7 lakhs to Rs. 8 lakhs to Shri Miritunjay Dasgupta for further handing over to Shri R.P.Meena, Chemical Examiner, Gr-1, CRCL, Kandla. Further, with regards to the statements of the noticcees recorded under Section 108 of the Customs Act, 1962, I rely on the case of Surjeet Singh Chhabra v. Union of India, 1997 (89) E.L.T. 646 (S.C.), wherein the Supreme Court has held that confessional statement made before Customs officer is an admission and binding since Customs officers are not police officers in terms of Section 25, Evidence Act, 1973. The Madras High Court in the case of Assistant Collector of Customs v. Govindasamy Ragupathy, 1998 (98) E.L.T. 50 (Mad.) held that confessional statement made under Sec. 108 of Customs Act, 1962 before Customs officers are to be regarded as voluntary. It is settled legal proposition that statement recorded under section 108 of the Act is admissible unlike a statement recorded by a Police Officer.
In view of the above, it is clear that Shri R.P. Meena, Chemical Examiner, Greed-1, CRCL, Kandla (presently posted to CRCL, Delhi) was knowingly indulged in the nefarious activities of smuggling in utmost defiance of law. For his acts of omission and commission, Shri R.P. Meena has rendered himself liable for penalty under Section 112 and section 114AA of the Customs Act, 1962.

17.6. Role of M/s. Sunrise Petroleum FZC, P. O. Box 42553, Sharjah under Section 114AA of the Customs Act, 1962:

I find that M/s. Sunrise Petroleum FZC, P. O. Box 42553, Sharjah were supplying the imported goods to M/s Jan Priya and other importers. They did not appear for Personal hearing on given time and date, however Shri R.K. Tomar, Advocate, Bombay High Court vide his written submission dated 19.08.2019 denied the allegation made out in SCN. Further vide his letter dated 21.08.2019 he prayed on behalf of the Noticee that the matter may be decided on the basis of the reply of the SCN. I find that Shri R.K. Tomar, Advocate for M/s. Sunrise Petroleum FZC, Sharjah (UAE) has submitted in his reply that since M/s Sunrise Petroleum FZC, Sharjah (UAE) is incorporated abroad, the Indian laws including the Customs Act, 1962 does not apply to them. He has relied upon the order of the Hon’ble CESTAT, Ahmedabad in the matter of Advance Exports vs. Commissioner of Customs, Kandla reported in [2007 (218) E.L.T 39 (Tri.- Ahmd)]. However, I find that the citations given by Shri R.K. Tomar will not be applicable in this case, for non-applicability of Indian Laws on firms incorporated abroad in view of prevailing Section 1 of Customs Act, 1962 (As amended by Finance Act, 2018) wherein it is explicitly mentioned that it extends to the whole of India [and, save as otherwise provided in this Act, it applies also to any offence or contravention there under committed outside India by any person.] Therefore, the question of non-applicability of Customs Act, 1962 (as amended time to time) for the suppliers, does not arise and they are also liable to be penalized under Customs Act, 1962.

I find that M/s. Sunrise Petroleum FZC, P. O. Box 42553, Sharjah under Section 114AA of the Customs Act, 1962, being supplier of the goods facilitated the importers in importing the SKO, which is a restricted good, in violation of policy provisions and also in contravention of the provisions of Petroleum Act, 1934 by way of providing them the documents showing the goods as ICMP to import SKO upon being influenced by Shri Iqbal Rahman Shaikh of M/s Shree Sanari Shipping, who was a link between the supplier and the importers. For their acts of omission and commission has rendered themselves liable for penalty under Section 112 and 114AA of the Customs Act, 1962.

17.7. Role of M/s. Yes Corporation, 18, Daxeshwar Nagar, Avirbhav, Pandeshara, Surat:

I find that M/s. Yes Corporation, 18, Daxeshwar Nagar, Avirbhav, Pandeshara, Surat being receiver of the SKO imported by M/s. Janpriya vide B/E No. 7730154 dated 21.08.2018, in violation of the Policy provisions and also in contravention of the provisions of the Petroleum Act, 1934. I find that they were supplied and imported the goods in contravention of the above.

Page 65 of 68
Act, 1934, has not come forward to join the investigation and avoided their appearance even after issue of summons to them. They have not provided the required documents, which were specifically asked for from them in the course of inquiry under the provisions of Section 108 of the Customs Act, 1962. It is apparent that they had already nominated the tankers to take delivery of the illegally imported SKO and had the goods not kept on hold, they would have disposed of the same in illegal manner and that too without following the provisions of the Petroleum Act, 1934 and rules made there under. By such act and omission, on their part has rendered themselves liable to penalties under Section 112 (a) & (b), Section 114AA and Section 117 of the Customs Act, 1962.

18. In view of above, I pass the following order:

ORDER

(i) I cancel the clearance granted to 351.82 MTs goods imported vide B/E No. 7730154 dated 21.08.2018 declaring the same as ICMP falling under CTH No. 27101990 based on false test report on 28.08.2018 under Section 47 of the Customs, Act 1962.

(ii) I reject the classification of the imported goods declared as “Industrial Composite Mixture Plus” under tariff item 27101990 of the Customs Tariff Act, 1975 in Bills of Entry No. 7730154 dated 21.08.2018 (mentioned in TABLE-1), filed by M/s. Jan Priya Energy (IEC No. 1311005722), Delhi Gate A Road, Near Vijaya Bank, Peer Jado Mohalla, Nagaur, Rajasthan – 341001 and order to re-classify the imported goods viz. SKO (Superior Kerosene Oil) under CTH 27101910 of the Customs Tariff Act, 1975.

(iii) I order to re-assess the B/E No. 7730154 dated 21.08.2018 with correct description as SKO falling under CTH No.27101910 instead of declared description as ICMP under CTH No. 27101990 under Section 17 of the Customs Act, 1962.

(iv) I order for confiscation of the goods covered under Bill of Entry, mentioned in TABLE-1 i.e 351.82 MTS of SKO at declared assessable value of Rs.1,66,95,237/- under Section 111 (d), 111(m) and 111 (p) of the Customs Act, 1962. However, I give an option to the importer to redeem the confiscated goods on payment of redemption fine of Rs.15,00,000.00 (Rupees Fifteen Lakh only) in lieu of confiscation under Section 125 of the Customs Act 1962 for re-export purpose only.

(v) I also impose a penalty of Rs. 4,00,000.00 (Rupees Four Lakh only ) on M/s. Jan Priya Energy (IEC No. 1311005722), Delhi Gate A Road, Near Vijaya Bank, Peer Jado Mohalla, Nagaur, Rajasthan – 341001 under Section 112 of the Customs Act, 1962.

(vi) I also impose a penalty of Rs. 2,00,000.00 (Rupees Two Lakh only) on M/s. Jan Priya Energy (IEC No. 1311005722), Delhi Gate A Road, Near Vijaya Bank, Peer Jado Mohalla, Nagaur, Rajasthan – 341001 under Section 114AA of the Customs Act, 1962.
(vii) I also impose penalty of Rs.50,000/- (Rupees Fifty Thousand only) on M/s. Jan Priya Energy (IEC No. 1311005722), Delhi Gate A Road, Near Vijaya Bank, Peer Jado Mohalla, Nagaur, Rajasthan – 341001 under Section 117 of the Customs Act, 1962.

(viii) I also impose a penalty of Rs. 4,00,000.00 (Rupees Four Lakh only ) Shri Virbhadra Rao Ila, Proprietor of M/s. Shree Sanari Shipping, P&P Plaza, Plot No. 314, Ward 12B, LIC Street, Gandhidham, under Section 112 of the Customs Act, 1962.

(ix) I also impose a penalty of Rs. 2,00,000.00 (Rupees Two Lakh only) on Shri Virbhadra Rao Ila, Proprietor of M/s. Shree Sanari Shipping, P&P Plaza, Plot No. 314, Ward 12B, LIC Street, Gandhidham, under Section 114AA of the Customs Act, 1962.

(x) I also impose a penalty of Rs. 2,00,000.00 (Rupees Two Lakh only) on Shri Iqbal Rahman Shaikh, Representative of M/s. Shree Sanari Shipping, Gandhidham, under Section 112 of the Customs Act, 1962.

(xi) I also impose a penalty of Rs.1,00,000/- (Rupees One Lakh only) on Shri Iqbal Rahman Shaikh, Representative of M/s. Shree Sanari Shipping, Gandhidham, under Section 114AA of the Customs Act, 1962.

(xii) I also impose a penalty of Rs. 4,00,000.00 (Rupees Four Lakh only) on Shri Mritunjay Dasgupta (Customs Broker), Proprietor of M/s. MAT Shipping, Gandhidham under Section 112 of the Customs Act, 1962.

(xiii) I also impose a penalty of Rs. 2,00,000.00 (Rupees Two Lakh only) on Shri Mritunjay Dasgupta (Customs Broker), Proprietor of M/s. MAT Shipping, Gandhidham under Section 114AA of the Customs Act, 1962.

(xiv) I also impose a penalty of Rs. 4,00,000.00 (Rupees Four Lakh only) on Shri R.P. Meena, Chemical Examiner Gr-I, Custom House Laboratory Kandla (presently posted at CRCL, New Delhi) under Section 112 of the Customs Act, 1962.

(xv) I also impose a penalty of Rs. 2,00,000.00 (Rupees Two Lakh only) on Shri R.P. Meena, Chemical Examiner Gr-I, Custom House Laboratory Kandla (presently posted at CRCL, New Delhi) under Section 114AA of the Customs Act, 1962.

(xvi) I also impose a penalty of Rs. 4,00,000.00 (Rupees Four Lakh only) on M/s. Sunrise Petroleum FZC, P. O. Box 42553, Sharjah under Section 112 of the Customs Act, 1962.

(xvii) I also impose a penalty of Rs. 2,00,000.00 (Rupees Two Lakh only) on M/s. Sunrise Petroleum FZC, P. O. Box 42553, Sharjah under Section 114AA of the Customs Act, 1962.

(xviii) I also impose a penalty of Rs. 4,00,000.00 (Rupees Four Lakh only) on M/s. Yes Corporation, 18, Daxsheshwar Nagar, Avirbhav, Pandeshara, Surat Section 112 of the Customs Act, 1962.

(xix) I also impose a penalty of Rs. 2,00,000.00 (Rupees Two Lakh only) on M/s. Yes Corporation, 18, Daxsheshwar Nagar, Avirbhav, Pandeshara, Surat 114AA of the Customs Act, 1962.
I also permit to re-export of the goods on payment of redemption fine and penalty and other charges as applicable as ordered above.

13. The said order is issued without prejudice to any other action that may be taken against the Noticees under the provisions of the Customs Act, 1962 and/or the Rules made there under and/or any other law for the time being in force.

F. No. 5/10-77/Adj/ADC/SKO-Janpriya/18-19
BY SPEED POST A.D. /BY EMAIL

To:
4. Shri Mrirunjay Dasgupta (Customs Broker), Proprietor of M/s. MAT Shipping, ICON Building, Office No. 109 & 110, 1st Floor, Plot No. 327, Ward 12/B, Tagore Road, Gandhidham, Kutch, Gujarat – 370201.
5. Shri R.P. Meena, Chemical Examiner Gr-I, Custom House Kandla Laboratory and presently posted at CRCL, New Delhi.
