2. The authorized Economic Operator (AEO) program works on modern supply chain security standards with close partnership between Customs and the trade. The AEO program seeks to provide tangible benefits in the form of faster cargo clearances and simplified Customs procedures, to those business entities who offer a high degree of security guarantees in respect of their role in the supply chain.

3. The objective of the AEO Program is to provide businesses with an internationally recognized quality mark which will indicate their secure role in the international supply chain and that their Customs procedures are efficient and compliant. An entity with an AEO status can, therefore, be considered a 'secure' trader and a reliable trading partner. For the economic operators other than importers and the exporters, AEO program offers one tier of certification (*i.e.* AEO-LO) whereas for the importers and the exporters, there will be three tiers of certification (*i.e.* AEO-T1, AEO-T2 and AEO-T3). Eligibility conditions and criteria are laid down under the aforesaid Board Circulars.

4. Through this initiative, Indian Customs have been asking businesses to ensure the integrity of their security practices and communicate and verify the security guidelines of their business partners within the supply chain. In exchange, Indian Customs extends to its AEO members with certain benefits, including:

 - iv. Benefits of Mutual Recognition Agreements with other Customs Administrations for AEO T2 and AEO T3.
 - v. Faster disbursement of drawback amount
 - vi. Fast tracking of refunds and adjudications
